Inclusive Transport: Fighting Involuntary Transport Disadvantages offers readers profound and multifaceted insights into transportation and social equity, guiding transportation and urban studies researchers, planners, and policy makers in evaluating potential solutions to this complex issue. It considers discrimination and its societal consequences, providing a needed perspective on who is left out of transportation planning, and why. The book is systematically divided into 2 parts, Part A is problem oriented and explores the main problems to the transportation disadvantaged; accessibility and affordability. It looks at the consequences of non-accessibility, the problems non-car owners face, and the interplay between housing and transportation; Part B is policy oriented and analyses how current policies tend to forget transport disadvantages. It looks at pragmatic solutions for transport disadvantaged and ends with a design for inclusive transport, being a more radical approach combining sustainability challenges, people's behaviours and emotions, creating more just and equitable mobility. Synthesizes academic research and narratives on transport disadvantage and the transport disadvantaged, linking the research with current mobility policies and practices Connects the fight on transport disadvantages with sustainable and smart mobility strategies and looks into car sharing, ride sharing and individualising public transport while de-individualizing car use Has an extensive usage of data, figures, and examples from around the world, and inspiring mobility plans and policies Ostervald 1770-1771 Bible Drawing on economics, organisational theory and politics, Jan-Erik Lane presents new public management from an analytical perspective. This book collects studies performed mainly with the support of the Agence Nationale de Recherche contre le Sida (French French National Agency of Research against AIDS). The purpose is to analyse the conditions to improve access to drugs against AIDS in developing countries, to urge on international agencies determinedly support patients treatment. The first part deals with the market of antiretrovirals and patents : How the prices drop taked place in 1998-2002, what were the debates about Intellectual Property Rights and WTO, what happened in countries as Brazil and Thailand? The second part deals with the impact of AIDS epidemic in the developing world and the role of therapeutic strategies to lower this impact. The book backs up the argument that the impact has been underestimated and theses strategies are feasible.
