[Timecode A User's Guide](#) Sep 29 2022 Recent radical changes in timecode technology, location shooting and post-production working practices have been brought about by the fragmentation of the television programme making industry and by a dramatic increase in affordable digital transmission and editing equipment and systems. With the expansion of non-traditional television service producers (cable, satellite and video-on-demand) almost anything goes as far as shooting and editing formats are concerned. Timecode: A User's Guide is an indispensable reference for anyone needing to get to grips with the many aspects of timecode, whether in-house or on location. Taking into account these changes this book has now been brought completely up to date to include: * timecode and DVD, LTC & VITC in HANC packets in the serial digital TV interfaces * timecode in IEEE1395 (Firewire) * timecode and digital video cassettes * new recording formats of DVD, DV mini cassettes and D6 are included * 4:3 scanning for wide-screen films - standards updated * new material to cover new working practices * new appendices to cover the global LF time data transmissions and time data embedded in BBC transmissions Advice is also given on avoiding and remedying faults and errors.

King Arthur Feb 08 2021 The book is an investigation of the evidence for King Arthur based on the earliest written sources rather than later myths and legends. The evidence is laid out in a chronological order starting from Roman Britain and shows how the legend evolved and at what point concepts such as Camelot, Excalibur and Merlin were added. It covers the historical records from the end of Roman Britain using contemporary sources such as they are, from 400-800, including Gallic Chronicles, Gildas and Bede. It details the first written reference to Arthur in the Historia Brittonum c.800 and the later Annales Cambriae in the tenth century showing the evolution of the legend in later Welsh and French stories. The work differs from other books on the subject in not starting from or aiming at a specific person. It compares the possibility of Arthur being purely fictional with a historical figure alongside a list of possible suspects. The evidence is presented and the reader is invited to make up their own mind before a discussion of the Author's own assessment.

They Both Die at the End Nov 07 2020 A love story with a difference - an unforgettable tale of life, loss and making each day count in the INTERNATIONAL NO. 1 BESTSELLING book of TIKTOK fame, clocking up 80 million views and counting! The First to Die at the End, the prequel to They Both Die at the End, is now available to pre-order in hardback, coming October 2022. On September 5th, a little after midnight, Death-Cast calls Mateo Torrez and Rufus Emeterio to give them some bad news: they're going to die today.

Mateo and Rufus are total strangers, but, for different reasons, they're both looking to make a new friend on their End Day. The good news: there's an app for that. It's called the Last Friend, and through it, Rufus and Mateo are about to meet up for one last great adventure - to live a lifetime in a single day. Another beautiful, heartbreaking and life-affirming book from the brilliant Adam Silvera, author of More Happy Than Not, History Is All You Left Me, What If It's Us, Here's To Us and the Infinity Cycle series. PRAISE FOR ADAM SILVERA: 'There isn't a teenager alive who won't find their heart described perfectly on these pages.' Patrick Ness, author of The Knife of Never Letting Go 'Adam Silvera is a master at capturing the infinite small heartbreaks of love and loss and grief.' [Minelab Excalibur Diary](#) Mar 24 2022 The Minelab Excalibur has been hailed as the best beach metal detector in the world and is widely used by many metal detectorists, both hobbyists and professionals alike. This book takes the reader through the first six months of the author owning and searching almost every day with a Minelab Excalibur and gives a valuable insight into what the potential user of such a machine is bound to experience. Minelab Excalibur Diary provides an unparalleled look at the ups and downs of mastering the Minelab Excalibur and deals with the problems that the beginner is likely to experience with his new machine. It also covers some of the modifications that can be made to make beach metal detecting easier, as well as dealing with the changing conditions of beaches and tides that can make a day's shore hunting either a golden success or a complete failure. Perhaps most importantly, the book also conveys to the reader the necessity of developing the right attitude to successful beach metal detecting with the Minelab Excalibur metal detector. Minelab Excalibur Diary is unique in as much as it is the true record of a metal detectorist's first seven months spent in a concentrated effort searching a single Thai beach rather than a conventional guide or a reference book. Although the diary is set on a beach in Thailand, the book provides a valuable and enjoyable read and will assist the owners of Minelab Excalibur metal detectors to a greater understanding of both their machines and the shorelines of any beaches in any country in the world.

IBM Informix Developer's Handbook Mar 12 2021 IBM® Informix® is a low-administration, easy-to-use, and embeddable database that is ideal for application development. It supports a wide range of development platforms, such as Java™, .NET, PHP, and web services, enabling developers to build database applications in the language of their choice. Informix is designed to handle RDBMS data and XML without modification and can be extended easily to handle new data sets. This IBM Redbooks® publication provides fundamentals of Informix application development. It covers the Informix Client installation and configuration for application development environments. It discusses the skills and techniques for building Informix applications with Java, ESQL/C, OLE DB, .NET, PHP, Ruby on Rails, DataBlade®, and Hibernate. The book uses code examples to demonstrate how to develop an Informix application with various drivers, APIs, and interfaces. It also provides application development troubleshooting and considerations for performance. This book is intended for developers who use IBM Informix for application development. Although some of the topics that we discuss are highly technical, the information in the book might also be helpful for managers or database administrators who are looking to better understand their Informix development environment.

[Tuttle Learning Chinese Characters](#) Jul 16 2021 This user-friendly book is aimed at helping students of Mandarin Chinese learn and remember Chinese characters. At last—there is a truly effective and enjoyable way to learn Chinese characters! This book helps students to learn and remember both the meanings and the pronunciations of over 800 characters. This otherwise daunting task is made easier by the use of techniques based on the psychology of learning and memory. Key principles include the use of visual imagery, the visualization of short "stories," and the systematic building up of more complicated characters from basic building blocks. Although Learning Chinese Characters is primarily a book for serious learners of Mandarin Chinese, it can be used by anyone with an interest in Chinese characters, without any prior knowledge of Chinese. It can be used alongside (or after, or even before) a course in the Chinese language. All characters are simplified (as in mainland China) but traditional characters are also given, when available. Key features: Specially designed pictures and stories are used in a structured way to make the learning process more enjoyable and effective, reducing the need for rote learning to the absolute minimum. The emphasis throughout is on learning and remembering the meanings and pronunciations of the characters. Tips are also included on learning techniques and how to avoid common problems. Characters are introduced in a logical sequence, which also gives priority to learning the most common characters first. Modern simplified characters are used, with pronunciations given in pinyin. Key information is given for each character, including radical, stroke-count, traditional form, compounds, and guidance on writing the character. This is a practical guide with a clear, concise and appealing layout, and it is well-indexed with easy look-up methods. The 800 Chinese characters and 1,033 compounds specified for the original HSK Level A proficiency test are covered.

The Excalibur Curse Feb 20 2022 The gripping conclusion to the acclaimed Arthurian fantasy trilogy from New York Times bestselling author Kiersten White finds Guinevere questioning everything—friends and enemies, good and evil, and, most of all, herself. While journeying north toward the Dark Queen, Guinevere falls into the hands of her enemies. Behind her are Lancelot, trapped on the other side of the magical barrier they created to protect Camelot, and Arthur, who has been led away from his kingdom, chasing after false promises. But the greatest danger isn't what lies ahead of Guinevere—it's what's been buried inside her. Vowing to unravel the truth of her past with or without Merlin's help, Guinevere joins forces with the sorceress Morgana and her son, Mordred—and faces the confusing, forbidden feelings she still harbors for him. When Guinevere makes an agonizing discovery about who she is and how she came to be, she finds herself with an impossible choice: fix a terrible crime, or help prevent war. Guinevere is determined to set things right, whatever the cost. To defeat a rising evil. To remake a kingdom. To undo the mistakes of the past...even if it means destroying herself. Guinevere has been a changeling, a witch, a queen—but what does it mean to be just a girl?

Surf, Sweat and Tears Dec 09 2020 "I don't normally read books about surfers, but this is like Truman Capote, with shorts." —Lee Child "Andy Martin, to his immense credit, knows that surfers are misfits and accidental comics, as well as great athletes." —Matt Warshaw "A sublime mixing of stoke and sorrow, hedonism and the macabre—skillfully and deftly penned by someone who had, and still has, intimate access to many of the key players." —Tom Anderson, author of *Riding the Magic Carpet: A Surfer's Odyssey to*

Find the Perfect Wave This is the true story of Ted, Viscount Deerhurst, the son of the Earl of Coventry and an American ballerina who dedicated his life to becoming a professional surfer. Surfing was a means of escape, from England, from the fraught charges of nobility, from family, and, often, from his own demons. Ted was good on the board, but never made it to the very highest ranks of a sport that, like most, treats second-best as nowhere at all. He kept on surfing, ending up where all surfers go to live or die, the paradise of Hawaii. There, in search of the "perfect woman," he fell in love with a dancer called Lola, who worked in a Honolulu nightclub. The problem with paradise, as he was soon to discover, is that gangsters always get there first. Lola already had a serious boyfriend, a man who went by the name of Pit Bull. Ted was given fair warning to stay away. But he had a besetting sin, for which he paid the heaviest price: He never knew when to give up. *Surf, Sweat and Tears* takes us into the world of global surfing, revealing a dark side beneath the dazzling sun and cream-crested waves. Here is surf noir at its most compelling, a dystopian tale of one man's obsessions, wiped out in a grisly true crime.

The Secret of Excalibur May 02 2020 A LEGENDARY WEAPON. A RUTHLESS ASSASSIN. A PERILOUS HUNT. *Excalibur* . . . Legend has it that he who carries King Arthur's mighty sword into battle will be invincible. But for more than a thousand years, the secret to the whereabouts of this powerful weapon has been lost . . . until now. Archaeologist Nina Wilde is hoping for a little R&R with her fiancé, former SAS bodyguard Eddie Chase. But the couple's plans are dashed when a meeting with an old acquaintance propels Nina and Eddie into a razor's-edge hunt across the globe—battling a team of elite mercenaries who will stop at nothing in order to claim a prize every treasure hunter has coveted since the final days of Camelot. Nina and Eddie must do everything they can to keep the legendary blade from falling into the wrong hands. Because the truth behind the sword's power—and those who seek it—will not only shock the world but plunge it into a new and more devastating era of war.

FPGAs May 26 2022 Field Programmable Gate Arrays (FPGAs) are currently recognized as the most suitable platform for the implementation of complex digital systems targeting an increasing number of industrial electronics applications. They cover a huge variety of application areas, such as: aerospace, food industry, art, industrial automation, automotive, biomedicine, process control, military, logistics, power electronics, chemistry, sensor networks, robotics, ultrasound, security, and artificial vision. This book first presents the basic architectures of the devices to familiarize the reader with the fundamentals of FPGAs before identifying and discussing new resources that extend the ability of the devices to solve problems in new application domains. Design methodologies are discussed and application examples are included for some of these domains, e.g., mechatronics, robotics, and power systems.

THE POLICE OFFICER'S GUIDE TO OPERATING AND SURVIVING IN LOW-LIGHT AND NO-LIGHT CONDITIONS Aug 17 2021 The majority of crimes occur during the hours of darkness, and fully two-thirds of all shooting incidents in which police officers on duty are killed take place during hours of diminished light. The goal of this unique book is to increase officers' awareness that training in low-light and no-light conditions is necessary in order for them to prevail in such situations, to help facilitate correct decision making under these conditions, and to help them understand the use of a myriad of illumination tools available for professional use today. Major topics include: (1) dim-light and no-light doctrine, including navigation techniques, threat location, threat acquisition, and threat identification; (2) flashlight doctrine, including many examples of engaging a threat using a flashlight; (3) low-light weapon sighting systems; (4) techniques used for signalling during dim-light and no-light conditions; and (5) illumination technologies supporting tactical and emergency operations, including infrared systems, thermal imagers, night vision systems, strobe lights, and lasers. Through the use of the techniques described throughout this unique and comprehensive book, the skill, professionalism, and ability of police officers to operate and survive in dim-light, no-light, and artificial light conditions will be enhanced

Forging Excalibur Apr 24 2022 Our modern Toxic "Success" Driven society is placing enormous pressure on Men to acquire material wealth and social acceptance, resulting in Men feeling even more inadequate and uncertain, creating deeper levels of disconnection with themselves. There is nothing wrong with money, nor achievement, but to make "success" the driving force is damaging Men, as they do not know how to strive for goals and achievement whilst still remaining healthy, well balanced Men; able to integrate their masculinity in a healthy way. Add to this, the fact that Men endure a glaring spotlight on them constantly, with movements such as #metoo and concepts such as "toxic masculinity" in our society. This is placing all Men in the same unhealthy container with this ideology that we all possess a core which is innately aggressive, violent and misogynistic. This widespread sensationalist and false vision of Men is becoming mainstream and permeating our consciousness as well as indoctrinating young people into this mindset. It is damaging to Men on a very core, fundamental level. These unhealthy concepts then adversely affect their intimate relationships and quality of parenting. Men's contribution to society is waning and the nurturing of healthy masculine within all Men which has served humanity at a high level for millennia is

deteriorating. As a result, we are faced with a generation of Men, who are totally unaware of who they are, their purpose in life and lacking any connection with the core of who they are and what they represent. These same Men are raising a new generation of boys who are under phenomenal amounts of strain and a crisis of purpose and identity, which is leading to record levels of depression and suicide in Men across the globe. It is a catastrophe of massive proportions which is permeating our minds and adversely affecting our global culture at a level we've never seen and an issue which requires its own, brighter spotlight. This is where my new book "Forging Excalibur" comes in. It will help to bring light to these issues and attempt to answer questions Men across the planet have regarding themselves and their uncertain future as Men. It attempts to bridge the gap between where we are and where we need to be as Men and in turn, give Men some great tools, healthy ideologies, concepts and awarenesses in order to begin the process of growth which is, in effect forging their own sense of "SELF" - their very own "Excalibur". "Forging Excalibur" will help and empower Men to find purpose and meaning in life, get in touch with their core values and operate

at optimum levels in life, which will contribute to creating a society where Men are fully embodied and integrated within their masculine. I liken the process of a Man rediscovering his masculinity as that which a sword goes through when forged. It is subjected to extreme heat and a literal battering, before it becomes something useful with purpose. Similarly, a man must endure extreme adversity, walk through the veritable fire; if he is to develop the strength, resilience and fortitude to be able to fully embody and integrate the masculine. Within these pages you will find the "Seven Standards of Men" which are standards I feel every Man should aspire to embody to create the very best version of himself he can be. This book is for good Men who wish to become better. These Men make better partners, better fathers and better sons; better PEOPLE. This is a journey of self discovery where you will set into the fire, be hammered, folded, hammered again, shaped and crafted into the Man you know you have within you. This book will help you to forge your own version of "Excalibur" which you will carry with you in life with Strength, Passion and Purpose.
