**The Gardens at Giverny** Jan 09 2021 A Colorful Photographic Tribute to

the Gardens Celebrated in Monet's Paintings Claude Monet found inspiration in the rose-covered trellises, the wild ramble of nasturtiums, and the idle drift of water lilies in the gardens of Giverny outside Paris. So, too, did Stephen Shore, who photographed the gardens one hundred years later, upon their painstaking restoration to the state they had enjoyed during Monet's lifetime. Originally commissioned by the Metropolitan Museum of Art to photograph the renaissance of the gardens, Shore visited Giverny over a period of six years beginning in 1977. Going before dawn and leaving after dusk, visiting in different seasons, he came to know the gardens in all the moods and textures that nurtured Monet. "With the sensitivity of a poet, Stephen Shore has given a new interpretation of this garden, which so enchanted Claude Monet," writes Gerald Van Der Kamp, the man in charge of spearheading the careful revival of Monet's beloved gardens. Shore's uncompromising fidelity to both the gardens' plenitude and his desire to present the abstract beauty of nature results in exquisitely serene photographs that express the essence of Giverny.

The garden grew to be both Monet's most exquisite masterpiece, and his greatest inspiration. He celebrated it in many of his glorious impressionist paintings." -- Publisher's description

**Painting the Modern Garden** Apr 11 2021 "While depictions of gardens are found throughout history, the impressionists were among the first to portray gardens directly from life, focusing on their color and form rather than using them as a background. This volume explores the close, symbiotic relationship between artists and gardens that developed during the latter part of the 19th and first part of the 20th centuries, centering on Monet, a great horticulturalist as well as a great artist who cultivated gardens wherever he lived, and the creation of his masterpiece garden at Giverny, where he painted his renowned water-lilies series. Beautifully illustrated with masterpieces by Monet and later painters--Renoir, Bonnard, Sargent, Klee, Kandinsky, and Matisse, among others--*Painting the Modern Garden* traces the evolution of the garden theme from impressionist visions of light and atmosphere to retreats for reverie, sites for bold experimentation, sanctuaries, and, ultimately, signifiers of a world restored to order--a paradise regained."--Publisher's description.

Monet Jun 13 2021 -Majestic tribute to one of the most important artists of all time Who doesn't know Claude Monet's (1840-1926) famous Water Lilies? His explosions of color on canvas immerse everyone in a sea of reflections, until it is impossible to know where water starts and sky ends. The garden paintings, of which three hundred works depict the lily pond, are regarded as Claude Monet's chef-d'oeuvre. The artist commenced these works in the 1890s but produced the majority of the paintings during the final two decades of his life. His early paintings of the lily pond embraced the conventional spatial boundaries of water, surrounding land and horizon. Yet the longer Monet worked, the more the boundaries began to blur, until the pond became the universe: its scope immeasurable and defined exclusively by light. Monet's influence was tremendous. His unique color palette, vision and approach changed the course of Western art. Many artists have been influenced by Monet, whose techniques inspired both the Impressionists and Post-Impressionists, including Vincent van Gogh. In terms of form and scale,

the artist's work directly influenced Abstract Expressionists such as Jackson Pollock and Mark Rothko. Andy Warhol once attested to the fact that his multiple renditions of a single subject were inspired by the French painter. It is also true to say that Monet laid the groundwork for the Minimalist movement that emerged in the 1960s. Still extremely popular in his own right, Monet continues to define both the public's appreciation of art and the perception of beauty in its purest form. The last major Monet exhibitions in the Netherlands were staged at the Gemeentemuseum in 1952 and the Van Gogh Museum in 1986. The majority of his famous garden paintings, which had a profound influence on Rothko and Pollock, for example, have never been exhibited in the country. High time, therefore, for a majestic tribute at the Gemeentemuseum Den Haag (12 October 2019 until 2 February 2020) and a new accompanying catalogue.

**Monet's Garden** Jan 21 2022 "Claude Monet was one of the first artists to move his studio out into the open air, creating works which continue to fascinate and inspire us today as much as they did his contemporaries. One of the founding fathers of Impressionist art, Monet's works consistently reflect the artist's profound love of nature. Many of his paintings were directly inspired by the gardens that played such an important role in his life--the gardens at his two homes in Argenteuil in the 1870s, followed by a garden at his estate in Vetheuil. Yet the most famous of Monet's gardens was the expansive park in Giverny, which inspired his masterful handling of light and color for more than thirty years and provided motifs for hundreds of individual paintings and series that remain immensely popular today--among them the masterpieces of his Water-Lilies series."--Dust-jacket.
