**The Order Has Been Carried Out** Jul 01 2020 On March 24, 1944, Nazi occupation forces in Rome killed 335 unarmed civilians in retaliation for a partisan attack the day before. Portelli has crafted an eloquent, multi-voiced oral history of the massacre, of its background and its aftermath. The moving stories of the victims, the women and children who survived and carried on, the partisans who fought the Nazis, and the common people who lived through the tragedies of the war together paint a many-hued portrait of one of the world's most richly historical cities. *The Order Has Been Carried Out* powerfully relates the struggles for freedom under Fascism and Nazism, the battles for memory in post-war democracy, and the meanings of death and grief in modern society.

**The Jews in Mussolini's Italy** Nov 17 2021 Often overshadowed by the persecution of Jews in Germany, the treatment of Jews in fascist Italy comes into sharp focus in this volume by Italian historian Michele Sarfatti. Beginning with a history of Italian Jews in the decades before fascism--when Jews were fully integrated into Italian national life--Sarfatti provides a deft and comprehensive history from the rise of fascism in 1922 to its defeat in 1945. From the beginning of his regime, Mussolini degraded the relationship between Italian Jews and the state. In 1938, anti-Jewish legislation deprived Jews of their rights and their livelihoods--with laws that sometimes preceded the concurrent German legislation--and 1943 marked the beginning of physical persecution of Jews in areas not yet liberated by the Allies. Sarfatti's work is a vigorous condemnation of Mussolini and his regime. Available in English for the first time, this revised and expanded edition uses thorough and careful statistical evidence to document how the Italian social climate changed from relatively just to irredeemably prejudicial. Most forcefully, Sarfatti demonstrates that Rome did not simply follow the lead of Berlin. Rather, Mussolini showed the ability to independently develop a hostile relationship with Italy's Jews, one that eventually led the Italian regime to cooperate in Hitler's "Final Solution." The translation of this book has been funded by SEPS--Segretariato Europeo per le Pubblicazioni Scientifiche Outstanding Academic Title, Choice Magazine

**The Italians and the Holocaust** Apr 22 2022 "A careful historical account linked to personal narratives."-New York Times Book Review. Eighty-five percent of Italy's Jews survived World War II. Nevertheless, more than six thousand Italian Jews were destroyed in the Holocaust and the lives of countless others were marked by terror. Susan Zuccotti relates hundreds of stories showing the resourcefulness of the Jews, the bravery of those who helped them, and the inhumanity and indifference of others. For Zuccotti, the Holocaust in Italy began when the first "black-shirted thug" poured a bottle of castor oil down the throat of his victim, or when the dignity of a single human being was violated. She writes: "We might examine again how most Italians behaved from the onset of fascism. . . . Did they do as much as they could? Or should they, and the Jews as well, have recognized the danger sooner, with the first denial of liberty and free speech? We might also ask ourselves whether we, as creatures without prejudice, would act as well as most Italians did under similar pressures. Would we risk our lives for persecuted minorities? Would we be more sensitive to the first assaults upon our liberties, when the only ones really hurt in the beginning are Communists, Socialists, democratic anti-Fascists, and trade unionists? And finally, we might be more aware than we are of the horrors that a racist lunatic fringe can commit, even in the best of societies." Susan Zuccotti teaches modern European history at Columbia University. She is also the author of *The Holocaust, the French, and the Jews*. The introduction by Furio Colombo was translated into English for this Bison Books edition. The author of *God in America: Religion and Politics in the United States*, Colombo is professor of Italian Studies at Columbia.

The Templars and their Sources May 11 2021 Even 700 years after the suppression of the Order of the Temple and the execution of the last grandmaster, Jacques de Molay, there is no shortage of publications on this influential military order. Yet unlike other medieval institutions the Templars are subject to speculative fiction and popular myth which threaten to swamp the fruits of scholarly endeavour. Fortunately, recent years have produced a thriving academic scholarship which is challenging these myths. More and more sources are currently being edited, particularly those for the trial of the Templars (1307-1312). Others are still awaiting indepth study, among them, surprisingly, the greater part of the charters that cover more than 150 years of the Order's history. The papers in this volume step into this gap and critically evaluate new directions in Templar studies on the basis of as-yet unedited source material. Open issues and desiderata regarding the sources are discussed and from a range of inspiring results a new status quaestionis is proposed that will not only provide a better understanding of the Order's archaeological, economical, religious, administrative and military history, but also set new points of departure for the editing of charters and administrative documents. The papers here are grouped into six sections, focusing on the headquarters of the Order, its charters, manpower and finance, religious life and finally the suppression and the Order's afterlife.

Censorship and Literature in Fascist Italy Nov 05 2020 The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to

shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

*20th Century Physics* Mar 09 2021 In this important volume, major events and personalities of 20th century physics are portrayed through recollections and historiographical works of one of the most prominent figures of European science. A former student of Enrico Fermi, and a leading personality of physical research and science policy in postwar Italy, Edoardo Amaldi devoted part of his career to documenting, both as witness and as historian, some significant moments of 20th century science. The focus of the book is on the European scene, ranging from nuclear research in Rome in the 1930s to particle physics at CERN, and includes biographies of physicists such as Ettore Majorana, Bruno Touschek and Fritz Houtermans. Edoardo Amaldi (Carpaneto, 1908 - Roma, 1989) was one of the leading figures in twentieth century Italian science. He was conferred his degree in physics at Rome University in 1929 and played an active role (as a member of the team of young physicists known as 'the boys of via Panisperna') in the fundamental research on artificial induced radioactivity and the properties of neutrons, which won the group's leader Enrico Fermi the Nobel Prize for physics in 1938. Following Fermi's departure for the United States in 1938 and the disruption of the original group, Amaldi took upon himself the task of reorganising the research in physics in the difficult situation of post-war Italy. His own research went from nuclear physics to cosmic ray physics, elementary particles and, in later years, gravitational waves. Active research was for him always coupled to a direct involvement as a statesman of science and an organiser: he was the leading figure in the establishment of INFN (National Institute for Nuclear Physics) and has played a major role, as spokesman of the Italian scientific community, in the creation of CERN, the large European laboratory for high energy physics. He also actively supported the formation of a similar trans-national joint venture in space science, which gave birth to the European Space Agency. In these and several other scientific organisations, he was often entrusted with directive responsibilities. In his later years, he developed a keen interest in the history of his discipline. This gave rise to a rich production of historiographic material, of which a significant sample is collected in this volume.

*Mamma Mia* Oct 04 2020 What is it in the operatic Italian psyche that allows-indeed, forgives, even applauds-Italy's premier for conducting a lifestyle as decadent as a Fellini extravaganza, while organizing an ongoing string of questionable behaviors and politically incorrect gaffes not seen since the

days of Nero? All this, and yet Mr. Berlusconi remains completely “understood” by so many of his countrymen-some of whom keep coming back for more! Best-selling writer Beppe Severgnini, who by explaining America to Italians humorously immortalized American behavior in his book *Ciao, America!*, now trains his sights on his own countrymen. Through witty yet substantive anecdotes touching on Italy’s current political and economic climate, Severgnini decodes the Italian premier’s style and appeal, exploring his rise to power and creating a compulsively readable portrait of Italy today.

**Narrative and Imperative** Sep 03 2020 Narrative & Imperative is the first book in English on Italian Holocaust writing as a whole. Risa Sodi explores the work of eight representative authors, including the internationally famous (Primo Levi, Giorgio Bassani, and Elsa Morante) and the lesser known (Giacomo Debenedetti, Paolo Maurensig, Liana Millu, Bruno Piazza, and Giuliana Tedeschi). She examines issues of genre, language, gender, and facticity while situating the works studied within the fields of European and Holocaust letters. A brief history of the Italian Jews - the oldest Jewish community in Europe - opens the book, and the conclusion brings the study up to recent times.

**Rome Open City (Roma Città Aperta)** Apr 10 2021 Otto Preminger said the history of the cinema was divided into two eras: one before and one after Rome Open City (Roma Città Aperta, 1945). The film is based on events that took place in Rome in 1944, during the Nazi occupation. This book re-examines the film and its place in Rossellini's career. David Forgacs reconstructs its production history, its relationship to the events that inspired it and the time in which it was made. He argues that the traditional critical labelling of Rome Open City as the original work of neo-realism fails to capture the film's hybrid and contradictory character. Part documentary record, part patriotic myth, Rome Open City is at once an extraordinarily

powerful commemoration of wartime experience and a rhetorical reworking of that experience, using stereotypes and moral polarisations.
