Book Traces Mar 12 2021 In most college and university libraries, materials published before 1800 have been moved into special collections, while the post-1923 books remain in general circulation. But books published between these dates are vulnerable to deaccessioning, as libraries increasingly reconfigure access to public-domain texts via digital repositories such as Google Books. Even libraries with strong commitments to their print collections are clearing out the duplicates, assuming that circulating copies of any given nineteenth-century edition are essentially identical to one another. When you look closely, however, you see that they are not. Many nineteenth-century books were donated by alumni or their families decades ago, and many of them bear traces left behind by the people who first owned and used them. In *Book Traces*, Andrew M. Stauffer adopts what he calls "guided serendipity" as a tactic in pursuit of two goals: first, to read nineteenth-century poetry through the clues and objects earlier readers left in their books and, second, to defend the value of keeping the physical volumes on the shelves. Finding in such books of poetry the inscriptions, annotations, and insertions made by their original owners, and using them as exemplary case studies, Stauffer shows how the physical, historical book enables a modern reader to encounter poetry through the eyes of someone for whom it was personal.

Andrew Henry's Meadow Oct 19 2021 A classic reissued for a new generation Andrew Henry has two younger brothers, who are always together, and two older sisters, who are always together. But Andrew Henry is in the middle--and he's always with himself. He doesn't mind this very much, because he's an inventor. But when Andrew Henry's family doesn't appreciate him or his inventions, he decides it's time to run away. Many children in the neighborhood feel the same way and follow him to his meadow, where he builds each of his friends a unique house of their very own. But in town the families miss their children and do everything they can to find them. And the kids realize that it feels a little lonely out in the meadow without their parents. Just as relevant today as it was in 1967, this is a heart-warming story about children who want to feel special and appreciated for who they are. Now Comes Good Sailing Oct 07 2020 From twenty-seven of today's leading writers, an anthology of original pieces on the author of *Walden* Features essays by Jennifer Finney Boylan • Kristen Case • George Howe Colt • Gerald Early • Paul Elie • Will Eno • Adam Gopnik • Lauren Groff • Celeste Headlee • Pico Iyer • Alan Lightman • James Marcus • Megan Marshall • Michelle Nijhuis • Zoë Pollak • Jordan Salama • Tatiana Schlossberg • A. O. Scott • Mona Simpson • Stacey Vanek Smith • Wen Stephenson • Robert Sullivan • Amor Towles • Sherry Turkle • Geoff Wisner • Rafia Zakaria • and a cartoon by Sandra Boynton The world is never done catching up with Henry David Thoreau (1817–1862), the author of *Walden*, “Civil Disobedience,” and other classics. A prophet of environmentalism and vegetarianism, an abolitionist, and a critic of materialism and technology, Thoreau even seems to have anticipated a world of social distancing in his famous experiment at Walden Pond. In *Now Comes Good Sailing*, twenty-seven of today's leading writers offer wide-ranging original pieces exploring how Thoreau has influenced and inspired them—and why he matters more than ever in an age of climate, racial, and technological reckoning. Here, Lauren Groff retreats from the COVID-19 pandemic to a rural house and writing hut, where, unable to write, she rereads *Walden*; Pico Iyer describes how Thoreau provided him with an unlikely guidebook to Japan; Gerald Early examines *Walden* and the Black quest for nature; Rafia Zakaria reflects on solitude, from Thoreau's Concord to her native Pakistan; Mona Simpson follows in Thoreau's footsteps at Maine's Mount Katahdin; Jennifer Finney Boylan reads Thoreau in relation to her experience of coming out as a trans woman; Adam Gopnik traces Thoreau's influence on the New Yorker editor E. B. White and his book *Charlotte's Web*; and there's much more. The result is a lively and compelling collection that richly demonstrates the countless ways Thoreau continues to move, challenge, and provoke readers today.

Turner as Draughtsman May 26 2022 *Turner as Draughtsman* looks at the artist's practice of drawing in various media (pen, pencil and chalk as well as watercolour and oil paint), an aspect of Turner's work which has hitherto received very little attention. Andrew Wilton shows that, while Turner's art has always been celebrated for its atmospheric breadth and freedom of handling, he based his working procedures throughout his career on the discipline of drawing in outline, which was an essential element in the grand strategy by which he achieved his formidable results. An important section of the book is devoted to the vexed question of Turner's drawing of the human figure, and the crucial role played by the figure both in his conception of landscape and in his ambitious attempts to master all the genres of fashionable contemporary art.

Equity-Centered Trauma-Informed Education (Equity and Social Justice in Education) Aug 05 2020 Educators must both respond to the impact of trauma, and prevent trauma at school. Trauma-informed initiatives tend to focus on the challenging behaviors of students and ascribe them to circumstances that students are facing outside of school. This approach ignores the reality that inequity itself causes trauma, and that schools often heighten inequities when implementing trauma-informed practices that are not based in educational equity. In this fresh look at trauma-informed practice, Alex Shevrin Venet urges educators to shift equity to the center as they consider policies and professional development. Using a framework of six principles for equity-centered trauma-informed education, Venet offers practical action steps that teachers and school leaders can take from any starting point, using the resources and influence at their disposal to make shifts in practice, pedagogy, and policy. Overthrowing inequitable systems is a process, not an overnight change. But transformation is possible when educators work together, and teachers can do more than they realize from within their own classrooms.

Andrew Wyeth Jun 02 2020 This book presents drawings that Andrew Wyeth retained for his own collection -- many preliminary to well-known paintings. Created over more than five decades, from 1951 to 2005, they range from portraits of family members and friends to vibrant depictions of objects, landscapes, and buildings in and around the artist's homes in Pennsylvania and Maine. These works reflect the insight, emotion, and technique that are uniquely his. They demonstrate Wyeth's extraordinary skill as a draftsman and the accuracy with which he sees light and dark, enabling him to model forms while suggesting the very substance and texture of what he sees. "I have always been powerfully affected by Andrew Wyeth's drawings and studies -- particularly those studies that do not attempt to cover the whole surface of the paper but instead focus on a few elements, so that the image seems to emerge magically from the empty white background, rather like a photograph that we observe in the process of development." -- Henry Adams

Adventures in Stationery Mar 24 2022 We are surrounded by stationery: half-chewed Cristal Bics and bent paper clips, rubber bands to fiddle with or ping, blunt pencils, rubbers and Tipp-ex are integral parts of our everyday environment. So much so that we never think about where they come from, why they are the way they are - or what stories they might have to tell. But luckily, James Ward does and he's here to tell you all about the secret pull stationery exerts on our lives. After all, who remains unmoved by the sight of a pristine blu-tak slab, or the first unmarked sheet of a brand new notepad? And which of humanity's brightest ideas didn't start life on a scrap of paper, a Post-it, or in the margins of a notebook? Exploring the stories behind these everyday objects, Ward reveals tales of invention - accidental and brilliant - and bitter rivalry. He also asks the questions you never thought you had: Who is Mr Pritt? What does shatter-proof resistant mean? How many pens does Argos use? And what does design evolutions in desk organisers mean for society? This witty and entertaining book, packed with fascinating facts, will change the way you look at your desk, pencil case or stationery cupboard forever.
