Under the Color of Law Feb 20 2022 "This will be the classic analysis of the legal aspects of the Bush wars. Martin Henn gives---first---a brilliant study of the Bush administration's orders and written opinions. On the other side, he presents the relevant details of the U.S. Constitution and applicable international laws. In this impressive and most careful consideration of all the significant documents on both sides, Under the Color of Law makes clear that the Bush administration was illegal, immoral, and inefficient in its 'war on terror.' Nothing else that I have seen on these matters is more important."---Sidney Winn. University of South Florida and Temple University --

A Question of Freedom Jan 22 2022 The story of the longest and most complex legal challenge to slavery in American history For over seventy years and five generations, the enslaved families of Prince George ' s County, Maryland, filed hundreds of suits for their freedom against a powerful circle of slaveholders, taking their cause all the way to the Supreme Court. Between 1787 and 1861, these lawsuits challenged the legitimacy of slavery in American law and put slavery on trial in the nation ' s capital. Piecing together evidence once dismissed in court and buried in the archives, William Thomas tells an intricate and intensely human story of the enslaved families (the Butlers, Queens, Mahoneys, and others), their lawyers (among them a young Francis Scott Key), and the slaveholders who fought to defend slavery, beginning with the Jesuit priests who held some of the largest plantations in the nation and founded a college at Georgetown. A Question of Freedom asks us to reckon with the moral problem of slavery and its legacies in the present day.

The Chicago Trunk Murder Dec 29 2019 On November 14, 1885, a cold autumn day in the City of Broad Shoulders, an enthusiastic crowd of several hundred watched as three Sicilians Giovanni Azari, Agostino Gelardi, and Ignazio Silvestri were hanged in the courtyard of the Cook County Jail. The three had only recently come to the city, but not long after they were arrested, tried, and convicted for murdering Filippo Caruso, stuffing his body into a trunk, and shipping it to Pittsburgh. Historian and legal expert Elizabeth Dale brings the Trunk Murder case vividly back to life, painting an indelible portrait of nineteenth-century Chicago, ethnic life there, and a murder trial gone seriously awry. Along the way she reveals a Windy City teeming with street peddlers, crooked cops, earnest reformers, and legal activists--all of whom play a part in this gripping tale. Chicago's Trunk Murder shows how the defendants in the case were arrested on dubious evidence and held, some for weeks, without access to lawyers or friends. The accused finally confessed after being interrogated repeatedly by men who did not speak their language. They were then tried before a judge who had his own view and ruled accordingly. Chicago's Trunk Murder revisits these abject breaches of justice and uses them to consider much larger problems in late nineteenth century criminal law. Written with a storyteller's flair for narrative and brimming with historical detail, this book will be must reading for true crime buffs and aficionados of Chicago lore alike.

RBI Office Attendant Exam 2022 | 1000+ Solved Questions (8 Mock Tests + 12 Sectional Tests + 1 Previous Year Paper) Sep 25 2019 • Best Selling Book in English Edition for RBI Office Attendant Exam with objective-type questions as per the latest syllabus given by the RBI. • Compare your performance with other students using Smart Answer Sheets in EduGorilla's RBI Office Attendant Exam Practice Kit. • RBI Office Attendant Exam Preparation Kit comes with 21 Tests(8 Mock Tests + 12 Sectional Tests + 1 Previous Year Paper)with the best quality content. • Increase your chances of selection by 14X. • RBI Office Attendant Exam Prep Kit comes with well-structured and 100% detailed solutions for all the questions. • Clear exam with good grades using thoroughly Researched Content by experts.

Medical Applications of Artificial Intelligence Oct 26 2019 Enhanced, more reliable, and better understood than in the past, artificial intelligence (AI) systems can make providing healthcare more accurate, affordable, accessible, consistent, and efficient. However, AI technologies have not been as well integrated into medicine as predicted. In order to succeed, medical and computational scientists must develop hybrid systems that can effectively and efficiently integrate the experience of medical care professionals with capabilities of AI systems. After providing a general overview of artificial intelligence concepts, tools, and techniques, Medical Applications of Artificial Intelligence reviews the research, focusing on state-of-the-art projects in the field. The book captures the breadth and depth of the medical applications of artificial intelligence, exploring new developments and persistent challenges.

Tell Me the Truth, Doctor Mar 12 2021 "Hey, Doc--Got a Minute?" No matter where Dr. Richard Besser goes, a day doesn't go by without someone stopping him to ask that question. Often, that person is one of the millions who have come to rely on the vital information he shares on Good Morning America, World News with Diane Sawyer, and Nightline. Now, in response to thousands of inquiries from viewers, Dr. Besser has written his first book -- a comprehensive health guide that will both inform and surprise as he deciphers fact from fiction for nearly seventy confusing medical questions, including: "Should I take a daily aspirin to prevent a heart attack, stroke, or cancer?" "If my doctors order a lot of tests, does that mean they're

more thorough?" "Do I need thirty minutes of exercise a day to stay healthy?" Recognizing the astonishing amount of misinformation that many important health decisions are based upon, Dr. Besser's commitment to delivering the truth is critical. He isn't afraid to challenge the status quo -- or the interests within the health care industry -- to provide the knowledge you need to take control of your health. Eager to help you make the choices that are right for YOU, he organizes his easy-to-understand answers into six lifestyle categories, including diet and nutrition; exercise and fitness; vitamins, supplements, and medicines; beating illness and injury; and navigating the perplexing world of health care, as well as a chapter dedicated to the questions you wished you asked before your doctor walks out the door. Throughout the book, Dr. Besser smashes myths while translating invaluable information into problem-solving advice you can use, including a "Dr. B's Bottom Line" at the end of each topic. As accessible as it is empowering, Dr. Besser's Tell Me the Truth, Doctor is a necessary addition to every home, office, and dorm room. "Besser . . . ably analyzes popular myths (the "Freshman Fifteen"), considers pros and cons (HRT and statins), and mostly takes unequivocal stands on the issues. . . . Quite often, his comments and suggestions surprise . . . Particularly helpful are his guidelines for avoiding the harmful effects of health care and hospitalization." -- Publishers Weekly Richard Besser, MD, ABC News' Chief Health and Medical Editor, provides medical analysis and commentary for all ABC News broadcasts and platforms, including World News with Diane Sawyer, Good Morning America, and Nightline, as well as many other news/entertainment programs. Since joining ABC News in 2009, Dr. Besser has been at the forefront of news coverage for every major medical story, including the earthquake in Haiti and the Japanese radiation release. He was the leading correspondent on ABC's global health series, Be the Change, Save a Life, and received a 2011 Emmy nomination for Outstanding Investigative Journalism for his World News story on cord blood banking. Besser came to ABC News from the Centers for Disease Control and Prevention (CDC), where he worked for thirteen years, including as acting director from January to June 2009, during which time he led the CDC's response to the H1N1 influenza outbreak. He has taught and trained doctors at the University of California, San Diego and is a visiting fellow at the Harvard School of Public Health. Most important, for more than twenty-five years he has practiced medicine, giving his patients and their families straightforward, commonsense advice.

A Question Of Interest Aug 29 2022 In Saudi Arabia today a classic confrontation between Islamic fundamentalism and modernism has brought the Saudi banking system virtually to a state of paralysis. The debate is between those upholding the traditional Islamic prohibition against charging interest on loans and those who wish to see a modern banking system capable of generating credit to support economic development. Drawing on personal experience, interviews, and unpublished primary sources, Peter Wilson tells a dramatic story of powerful personalities, clashing cultures, and often mysterious institutions with a journalists' eye for the telling anecdote as well as for the statistical evidence.
