Schwungradspeicher in der Fahrzeugtechnik Dec 09 2020 Schwungradenergiespeicher (Flywheel Energy Storage Systems, FESS) können als Alternative zu chemischen Batterien oder Kondensatoren in Fahrzeugen eingesetzt werden und besitzen enormes Entwicklungspotential. In diesem Buch werden FESS in einen globalen Kontext gesetzt und äußere Einflüsse wie Fahrzeug, Fahrer und Betriebsstrategie, bis hin zu sozio-psychologischen Aspekten, in Hinblick auf ihre Wechselwirkung mit dem Speicher analysiert. Daraus werden optimale Einsatzszenarien abgeleitet und die für einen Markterfolg relevanten Entwicklungsziele definiert. In einer Betrachtung des Subsystems werden jene kritischen Komponenten im FESS identifiziert, welche für das Erreichen der technischen Zieleigenschaften verantwortlich sind. Konkrete Lösungen für das Design der Schlüsselkomponenten werden generiert und deren Eignung durch empirische Untersuchungen an Gehäuse, Lagerung und Rotor sowie durch Gesamtprototypen validiert.

The Snow Watcher Feb 08 2021 "The Snow Watcher" is a sequence of poems that asks a single obsession question: what is the self?

The book is a radical re-envisioning of what makes us human rather than animal, human rather than insentient. The poems delve into parts of childhood more comfortably forgotten, and into the ancient stillness of the monastery (Twichell is a student of Zen Buddhism). In both realms the known self dissolves, or is intentionally dismantled, and what is left is something impossible to name, though its startling voice can be heard in the austere, near-empty rooms of these poems.

Things as It Is Mar 24 2022 "Poems of balanced wildness and instinctual grace."—New York Journal of Books "[Twichell's poems] open out into a stark, sometimes bewildered clarity." —The Washington Post "Suppose you had Sappho's passion, the intelligence and perspicacity of Curie, and Dickinson's sweet wit . . . then you would have the poems of Chase Twichell." —Hayden Carruth "A major voice in contemporary poetry." —Publishers Weekly Chase Twichell's eighth collection lifts up the joy of the moment while mourning a changing world. In *Things as It Is*—purposefully not things as they are—the present and past parallel and intermingle. Meditating on a litany of formative moments, Twichell's clear-as-a-bell voice delivers visceral and emotionally resonant lyrics,

elegies, and confessions. From “What the Trees Said”: The trees have begun to undress. Soon snow will come to bandage the whole wounded world. When I was young I eloped with the sky. I wore blue-black, with under-lit ribbons of pink . . . Chase Twichell, a graduate of the Iowa Writers’ Workshop, Twichell has published seven previous poetry collections, including *Horses Where Answers Should Have Been*, which received the 2011 Kingsley Tufts Award. For ten years, she owned and operated Ausable Press.

Electric Vehicle Integration into Modern Power Networks Mar 31 2020 *Electric Vehicle Integration into Modern Power Networks* provides coverage of the challenges and opportunities posed by the progressive integration of electric drive vehicles. Starting with a thorough overview of the current electric vehicle and battery state-of-the-art, this work describes dynamic software tools to assess the impacts resulting from the electric vehicles deployment on the steady state and dynamic operation of electricity grids, identifies strategies to mitigate them and the possibility to support simultaneously large-scale integration of renewable energy sources. New business models and control management architectures, as well as the communication infrastructure required to integrate electric vehicles as active demand are presented. Finally, regulatory issues of integrating electric vehicles into modern power systems are addressed. Inspired by two courses held under the EES-UETP umbrella in 2010 and 2011, this contributed volume consists of nine chapters written by leading researchers and professionals from the industry as well as academia.
