Talks on the study of literature Jun 26 2022 Talks on the study of literature is a series of lectures by Arlo Bates. Bates was an American author, educator and newspaperman. Excerpt: "We are all intensely eager to know what are the possibilities of humanity. We seek knowledge of them as an heir questions searchingly concerning the extent of the inheritance which has fallen to him. Literature is the inventory of the heritage of humanity. Life is but a succession of emotions; and the earnest mind burns with desire to learn what emotions are within its possibilities. The discoverer of an unsuspected capability of receiving delight, the realization of an unknown sensation, even of pain, increases by so much the extent of the possessions of the human being to whom he imparts it."

Poe Jun 02 2020 "Poe reclaims the Baltimore and Virginia writer's reputation and power, retracing Poe's life and career. James M. Hutchisson captures the boisterous worlds of literary New York and Philadelphia in the 1800s to understand why Poe wrote the way he did and why his achievement was so important to American literature. The biography presents a critical overview of Poe's major works and his main themes, techniques, and imaginative preoccupations." "This portrait of the writer emphasizes Poe's southern identity. It traces his existence as a workaday journalist in the burgeoning magazine era and later his tremendous authority as a literary critic and cultural arbiter. To counter the long-lasting damage done by Poe's literary enemies, Hutchisson explores the far-reaching, posthumous influence Poe's literary and critical work exerted on the sister arts and on modern writers from Nietzsche to Nabokov."--BOOK JACKET.

The Esoteric Origins of the American Renaissance Oct 07 2020
The term "Western esotericism" refers to a wide range of spiritual currents including alchemy, Hermeticism, Kabbala, Rosicrucianism, and Christian theosophy, as well as several practical forms of esotericism like cartomancy, geomancy, necromancy, alchemy, astrology, herbalism, and magic. The early presence of esotericism in North America has not been much studied, and even less so the indebtedness to esotericism of some major American literary figures. In this book, Arthur Versluis breaks new ground, showing that many writers of the so-called American Renaissance drew extensively on and were inspired by Western esoteric currents.

Reading, Writing, and Digitizing Nov 07 2020 Reading, Writing, and Digitizing offers a new theoretical proposal concerning expert and novice readers and writers based on the psycholinguistics of literacy. This book has five specific goals. First, it presents a theory of meta-reading and writing that describes what literacy experts are able to do with written text. They do what the word "meta" describes: go before and after, into and around, beyond and beside written text to understand and create meaning. Second, the case studies presented reveal differences between literacy novices and experts in terms of their awarenesses about texts and their skills; these are clarified as the discussion unfolds. Third, the book provides an analysis of the processing mechanisms people use and the features that texts contain that make literacy possible. A fourth goal is to examine how experts understand and produce texts in both traditional and digital venues. Finally, the book ends with focused strategies for instruction that will be useful to any reader working with people engaged in literacy development. Readers of this book will be better equipped to support the literacy development of others through their enhanced understanding of the psycholinguistics of reading and writing and of the differences between literacy novices and experts.

Studies in Classic American Literature Jun 14 2021 This collection of pervasive essays not only sheds light onto eighteenth and nineteenth-century American consciousness but also on Lawrence's own perspectives and individuality. He focuses on authors such as Melville, Whitman, and Edgar Allen Poe, creating an engaging exploration of their talents, and at the same time demonstrating his own. DH Lawrence (1885-1930) was an English poet and novelist. Famed for his lyrical prose, he was uncompromising in his mission to uncover the consequences of modernity and industrialization, particularly on sexuality, instinct, and spontaneity. His works, although innovative, were not truly appreciated until after his death, the most notable of which 'Lady Chatterley's Lover' was adapted to screen in 1981.

De-Centring Cultural Studies Nov 19 2021 The academic resistance that cultural studies has encountered remains especially visible in Eastern and Southern European countries. One such example is Spain, where cultural studies is seen at best as an emergent research field. Hence the interest of this volume, conceived in Spain by an all-Spanish editorial team and written by a diverse range of authors who prove that, in spite of all difficulties, cultural studies continues to bloom - even in Southern and Eastern Europe. The different chapters offer interdisciplinary insights into a wide selection of cultural materials whose relevance goes well beyond purely aesthetic issues. Altogether, the volume (1) provides interesting theoretical reflections on the subtle (yet arbitrary) borders between popular and canonical culture; (2) explores how the popular culture of yesteryear has influenced and inspired later "canonical" cultural materials; and (3) studies how the reception of, and representation in, popular culture can be accounted for from the crucially relevant perspectives of gender and age. This collection of essays studies and explores the connections between a wide range of materials, including relevant examples of classic and contemporary literature, Arthuriana, pop music and videos, political and mainstream film, newspaper advertising, television, and the phenomenon of the (trans)media star.

Edgar Allan Poe across Disciplines, Genres and Languages Oct 26 2019 This collection of essays, which rediscovers Edgar Allan

Poe's not forgotten lore, comprises a two-headed scholarly body, drawing from communication and linguistics and literature, although it also includes many other academic offshoots which explore Poe's labyrinthine and variegated imagination. The papers are classified according to two main domains, namely: (I) Edgar Allan Poe in Language, Literature and Translation Studies, and (II) Edgar Allan Poe in Communication and the Arts. In short, this book combines rigour and modernity and pays homage, with a fresh outlook, to Poe's extra-ordinary originality and brilliant weirdness which prompted renowned authors like James Russell Lowell and Howard P. Lovecraft to claim, respectively, that "Mr. Poe has that indescribable something which men have agreed to call genius" and that "Poe's tales possess an almost absolute perfection of artistic form which makes them veritable beacon lights in the province of the short story. Poe's weird tales are alive in a manner that few others can ever hope to be."

The Oxford Handbook of Edgar Allen Poe Jan 22 2022 No American author of the early 19th century enjoys a larger international audience than Edgar Allan Poe. Widely translated, read, and studied, he occupies an iconic place in global culture. Such acclaim would have gratified Poe, who deliberately wrote for "the world at large" and mocked the provincialism of strictly nationalistic themes. Partly for this reason, early literary historians cast Poe as an outsider, regarding his dark fantasies as extraneous to American life and experience. Only in the 20th century did Poe finally gain a prominent place in the national canon. Changing critical approaches have deepened our understanding of Poe's complexity and revealed an author who defies easy classification. New models of interpretation have excited fresh debates about his essential genius, his subversive imagination, his cultural insight, and his ultimate impact, urging an expansive reconsideration of his literary achievement. Edited by leading experts J. Gerald Kennedy and Scott Peeples, this volume presents a sweeping reexamination of Poe's work. Forty-five distinguished scholars address Poe's troubled life and checkered career as a "magazinish," his poetry and prose,

and his reviews, essays, opinions, and marginalia. The chapters provide fresh insights into Poe's lasting impact on subsequent literature, music, art, comics, and film and illuminate his radical conception of the universe, science, and the human mind. Wide-ranging and thought-provoking, this Handbook reveals a thoroughly modern Poe, whose timeless fables of peril and loss will continue to attract new generations of readers and scholars.

Hunting the Sun Feb 08 2021 Hunting the Sun upends all previous Faulkner biography, scholarship, and criticism by tracing to

Honoré de Balzac virtually everything in William Faulkner's oeuvre. Faulkner's work departs, often confusingly, from the traditional Romantic focus of novels. The reason for the confusion is that Faulkner was rewriting Balzac's La Comédie humaine, itself a prose revision of Dante's Divine Comedy, in order to create his own comedy. More specifically, Faulkner abandons the metaphysical basis of the earlier works and replaces them with a psychosexual one; for example, Balzac's «The Succubus» becomes Faulkner's «Carcassonne», which the American renders an erotic fantasy. Virtually all of Faulkner's major works, and many of the lesser ones, have direct sources in Balzac's work.
