PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects. The communications environment is rapidly changing. The barriers of traditional phone and data technologies are going to break down, and users can expect a true multimedia environment with existing services transferred and new services implemented. New suppliers, such as cable companies, will compete with interexchange carriers, RBOCs, and local phone companies for the market share. The differentiator is the price/performance ratio of the service under consideration. Today's migrated and new services lack powerful management solutions. Telecom Operations Management Solutions with NetExpert examines the most advanced products available to manage new technologies as well as addresses services, such as: Advanced telephony Wireless networks Commercial broadband Mass-market broadband Competitive access services Intercarrier communications Infrastructure services This resource also demonstrates how expert systems solve the problem of handling the large volume of data streams from numerous network components. Practical solutions support each example of an application - offering first-hand operational experience. The book provides practical examples to deploy management solutions based on NetExpert framework from Objective Systems Integrator. The framework consists of the principal modules, such as a gateway to managed devices and services as well as

the workstation for operators. This framework is extended by point rulesets to manage individual devices by domain rulesets to manage device groups by enterprise rulesets to manage complete telco services. The solution sets support all layers of telecommunication management networks, such as element, network, service, and business layers. As a result, these solution sets are extremely important to both incumbent and new telco service providers. Numerous cases cover customized solutions for managing wireless networks, sonet rings, ATM, old and new phone services, broadband services, and special access services of ISPs. Telecom Operations Management Solutions with NetExpert describes never-before-published information about solution sets based on an expert-system-based framework. For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network. Addresses the need for peer-to-peer computing and grid paradigms in delivering efficient service-oriented computing. Working with Microsoft's network directory service for the first time can be a headache for system and network administrators, IT professionals, technical project managers, and programmers alike. This authoritative guide is meant to relieve that pain. Instead of going through the graphical user interface screen by screen, O'Reilly's bestselling Active Directory tells you how to design, manage, and maintain a small, medium, or enterprise Active Directory infrastructure. Fully updated to cover Active Directory for Windows Server 2003 SP1 and R2, this third edition is full of important updates and corrections. It's perfect for all Active Directory administrators, whether you manage a single server or a global multinational with thousands of servers. Active Directory, 3rd Edition is divided into three parts. Part I introduces much of how Active Directory works, giving you a thorough grounding in its concepts. Some of the topics include Active Directory replication, the schema, application partitions, group policies, and interaction with DNS. Part II details the issues around properly designing the directory infrastructure. Topics include designing the namespace, creating a site topology, designing group policies for locking down client settings, auditing, permissions, backup and recovery, and a look at Microsoft's future direction with Directory Services. Part III covers how to create and manipulate users, groups, printers, and other objects that you may need in your everyday management of Active Directory. If you want a book that lays bare the design and management of an enterprise or departmental Active Directory, then look no further. Active Directory, 3rd Edition will quickly earn its place among the books you don't want to be without. Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region. Organizations increasingly need to deal with unstructured processes that traditional business process management (BPM) suites are not designed to deal with. High-risk, yet high-value, loan origination or credit approvals, police investigations, and healthcare patient treatment are just a few examples of areas where a level of uncertainty makes out. Perhaps the best-kept secret in the publishing industry is that many publishers--both periodical publishers and book publishers--make available writer's guidelines to assist would-be contributions. Written by the staff at each publishing house, these guidelines help writers target their submissions to the exact needs of the individual publisher. The American Directory of Writer's Guidelines is a compilation of the actual writer's guidelines for more than 1,600 publishers. A one-of-a-kind source to browse for article, short story, poetry and book ideas. For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and managing the voice, data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce. Published biennially since 1983, the Directory of Library Automation Software, Systems, and Services is recognized as the primary reference source for software packages used in automating libraries. This entirely new expanded edition provides detailed descriptions of hundreds of currently available microcomputer, minicomputer, and mainframe software packages and services. This new edition contains more comparative information on library applications software than is available from any other source. Plunkett's Almanac of Middle Market Companies 2008 is designed to be time-saving business development tool for professionals, marketers, sales directors, consultants and strategists seeking to understand and reach middle market American companies. It will also be of great use to placement, recruiting and human resources professionals, as well as professionals working in economic development, lending and media. It covers competitive intelligence, market research and business analysis--everything you need to identify and develop strategies for middle market corporations. Coverage includes all major business sectors, from InfoTech to health care to telecommunications and much more. (We have intentionally omitted retail companies and banks.) These profiles and details on over 500 middle market firms are pulled from our extensive company and industry databases. We also include a business glossary and a listing of business contacts, such as industry associations and government agencies. Next, we profile hundreds of leading middle market companies. Our company profiles include complete business descriptions and up to 27 executives by name and title. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled. CIO magazine, launched in 1987, provides business technology leaders with award-winning analysis and insight on information technology trends and a keen understanding of IT's role in achieving business goals. Analyzes key critical HR variables and defines previously undiscovered issues in the HR field. PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology. Revenue decreased less than 1 percent to \$1.46 billion for the fourth quarter of 2019. EPS decreased 41 percent to \$2.74 for the fourth quarter of 2019, negatively impacted by (\$0.65) in restructuring and strategic transaction costs. Core EPS decreased 29 percent to \$4.12 and adjusted EBITDA, net decreased 39 percent to \$278 million for the fourth quarter of 2019. EPS, core EPS and adjusted EBITDA were negatively impacted by a 59 percent decrease in earnings before taxes at Card Services. Full year result LoyaltyOne®: Constant currency revenue increased 1 percent to \$1.08 billion while constant currency adjusted EBITDA was flat at \$253 million for 2019. AIR MILES® reward miles issued increased less than 1 percent for 2019. Changes to the collector value proposition during 2019 are expected to stimulate issuance growth in 2020. BrandLoyalty returned to double-digit adjusted EBITDA growth for the year as a result of better program mix and cost containment initiatives undertaken in 2019. Card Services: Revenue decreased 1 percent to \$4.55 billion due to nominal growth in normalized receivables coupled with a 50 basis points decline in gross yields. Adjusted EBITDA, net decreased 25 percent to \$1.12 billion for 2019, primarily a result of an additional \$90 million negative adjustment to the carrying value of held-for-sale receivables and a \$172 million increase to the loan loss provision, as principal loss rates stabilized in 2019 as compared to

improving in 2018. Net principal loss rates were 6.1 percent in 2019, 3 basis points better than 2018, while delinquency rates increased slightly to 5.8 percent at December 31, 2019 primarily due to the turn of receivables acquired in the second quarter of 2019

COCKROACHES DON T CARE WHERE THEY SPEND THE NIGHT, BUT YOUR CUSTOMERS AND TENANTS DO Pest infestation is a scary situation, to say the least. But there is help professionals who know how to handle and prevent stubborn pests and keep them away. In **HERE TO HELP**, Kevin Thorn provides you with the knowledge and resources you need to: **CONFIDENTLY CHOOSE THE BEST PEST CONTROL PROVIDER PREVENT A PEST CONTROL CRISIS . . . SAVING YOU MONEY ACHIEVE PEACE OF MIND KNOWING YOU ARE A RESPONSIBLE BUSINESS MANAGER OR OWNER PROTECT YOUR BUSINESS BY AVOIDING COMPLAINTS, NEGATIVE EXPOSURE, AND EMBARRASSMENT"** This authoritative handbook, contributed to by a team of international experts, covers the most dynamic areas in the changing telecommunications landscape. Written for telecommunications specialists who implement the new technologies, **The CRC Handbook of Modern Telecommunications** is an excellent companion volume to the authors' **The Telecommunicatio** The demand and supply chain planning process for manufacturers, distributors, and retailers has evolved over the years. It has gone from a disjointed, unconnected, slow, inaccurate, fairly manual set of processes to an integrated, timely process enabled by the use and coordination of highly trained people, lean, agile processes, and cutting-edge technology. To make this set of processes work effectively, one has to fully understand and appreciate that there is an "art and science" aspect to the process which can take years of education and experience to fully understand. Essentially, this book will offer the reader a chance to fully understand the interconnected set of processes in a "best-practice" application. Furthermore, examples and cases will be used to illustrate its practical application in today's complex global supply chain. In addition, readers will understand and be able to apply and articulate the concepts, tools, and techniques used in the efficient supply of goods and services in today's changing global economy. It will help them to learn how businesses, through their supply chain, work both internally and with their trading partners – both upstream and downstream – to build strong relationships and integrate demand and supply planning activities across the supply chain to deliver customer value efficiently and effectively. They will learn about the tools and technologies enabling integration, and the critical drivers and key metrics of supply chain performance. Market research guide to the infotech industry a tool for strategic planning, competitive intelligence, employment searches or financial research. Contains trends, statistical tables, and an industry glossary. Includes one page profiles of infotech industry firms, which provides data such as addresses, phone numbers, and executive names. This book constitutes the refereed proceedings of the Sixth International Conference on Protocols for Multimedia Systems (PROMS 2001), held in Enschede, The Netherlands, in October 2001. The 18 papers presented were carefully reviewed and selected from a total of 43 papers. The papers are organized in sections on quality of service in the Internet, multimedia streaming, multimedia multicast, wireless networks and host mobility, tcp/ip optimization, and service development and deployment. Using the theory of management fashions proposed in the 1990s by Eric Abrahamson, Krzysztof Klineciewicz analyzes the changing popularity of management concepts accompanied by solutions. Among these are management bestsellers, consulting services, software systems, "methodologies," and approaches to organizational change, training courses, professional certifications and even new corporate positions. The book presents the phenomena of management fashions as being the key driver for the development of the management knowledge industry, consisting of consulting companies, computer firms, publishing houses, professional institutes, and other organizations involved in the launching and the promotion of new management techniques. The author supplements the existing body of knowledge by focusing on the supply-side of management fashions, particularly the strategies and marketing techniques of solution vendors, and proposes a model of relations between management ideas and tangible solutions, explaining how bestselling ideas are turned into objects and institutions. The empirical research described in this volume involves multiple methods, including discourse volume analysis and qualitative historical techniques. Included also is a comprehensive overview of the recent relevant developments in sociology, marketing, and organization sciences, in which the author draws on the heritage of praxiology by taking a meta-level perspective on the propositions of management science. Krzysztof Klineciewicz is lecturer at the School of Management, Warsaw University, and researcher at the School of Innovation Management, Tokyo Institute of Technology. His research interests combine organization theory, social sciences, and new technologies, with the focus on strategies of high-tech companies. He is certified chartered marketer of the British Chartered Institute of Marketing, and has numerous years of working experience in business development management for IT companies in Poland, Finland, and in the UK. For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations.
