The Circuit Jun 26 2022 Offers a look at a migrant family, detailing their daily life and the struggles they endured to build an existence on the small opportunities they were given

Breaking the Social Media Prism Feb 29 2020 A revealing look at how user behavior is powering deep social divisions online—and how we might yet defeat political tribalism on social media In an era of increasing social isolation, platforms like Facebook and Twitter are among the most important tools we have to understand each other. We use social media as a mirror to decipher our place in society but, as Chris Bail explains, it functions more like a prism that distorts our identities, empowers status-seeking extremists, and renders moderates all but invisible. **Breaking the Social Media Prism** challenges common myths about echo chambers, foreign misinformation campaigns, and radicalizing algorithms, revealing that the solution to political tribalism lies deep inside ourselves. Drawing on innovative online experiments and in-depth interviews with social media users from across the political spectrum, this book explains why stepping outside of our echo chambers can make us more polarized, not less. Bail takes you inside the minds of online extremists through vivid narratives that trace their lives on the platforms and off—detailing how they dominate public discourse at the expense of the moderate majority. Wherever you stand on the spectrum of user behavior and political opinion, he offers fresh solutions to counter political tribalism from the bottom up and the top down. He introduces new apps and bots to help readers avoid misperceptions and engage in better conversations with the other side. Finally, he explores what the virtual public square might look like if we could hit "reset" and redesign social media from scratch through a first-of-its-kind experiment on a new social media platform built for scientific research. Providing data-driven recommendations for strengthening our social media connections, **Breaking the Social Media Prism** shows how to combat online polarization without deleting our accounts.

Breaking Through May 02 2020 Trailblazing marine biologist, visionary conservationist, deep ecology philosopher, Edward F. Ricketts (1897?1948) has reached legendary status in the California mythos. A true polymath and a thinker ahead of his time, Ricketts was a scientist who worked in passionate collaboration with many of his friends?artists, writers, and influential intellectual figures?including, perhaps most famously, John Steinbeck, who once said that Ricketts's mind "had no horizons." This unprecedented collection, featuring previously unpublished pieces as well as others available for the first time in their original form, reflects the wide scope of Ricketts's scientific, philosophical, and literary interests during the years he lived and worked on Cannery Row in Monterey, California. These writings, which together illuminate the evolution of Ricketts's unique, holistic approach to science, include "Verbatim transcription of notes on the Gulf of California trip," the basic manuscript for Steinbeck's and Ricketts's *Log from the Sea of Cortez*; the essays "The Philosophy of Breaking Through" and "A Spiritual Morphology of Poetry;" several shorter pieces on topics including collecting invertebrates and the impact of modernization on Mexican village life; and more. An engaging critical biography and a number of rare photographs offer a new and richly detailed view of Ricketts's life.

The Culture Map (INTL ED) Oct 07 2020 An international business expert helps you understand and navigate cultural differences in this insightful and practical guide, perfect for both your work and personal life. Americans precede anything negative with three nice comments; French, Dutch, Israelis, and Germans get straight to the point; Latin Americans and Asians are steeped in hierarchy; Scandinavians think the best boss is just one of the crowd. It's no surprise that when they try and talk to each other, chaos breaks out. In *The Culture Map*, INSEAD professor Erin Meyer is your guide through this subtle, sometimes treacherous terrain in which people from starkly different backgrounds are expected to work harmoniously together. She provides a field-tested model for decoding how cultural differences impact international business, and combines a smart analytical framework with practical, actionable advice.

Breaking Through Culture Shock Dec 09 2020 *Breaking Through Culture Shock* clearly demonstrates that the ability to adapt to people with different motivations, behaviors and ways of making decisions is what separates those who succeed and those who fail—whether working as part of a cyberspace team or on long-term assignment in another country. The experiences of over 200 international managers and in-depth interviews with such global business leaders as Edward Dolman of Christies and Peter Job of Reuters show how to successfully manage the culture shock triangle: the emotional side, the thinking side and the social side. Marx profiles the characteristics of some of the world's major business cultures—including Germany, France, China and the UK—to offer positive and practical advice to both organizations and individuals who want to succeed.

Breaking Through Bureaucracy Aug 05 2020 This book attacks the conventional wisdom that bureaucrats are bunglers and the system can't be changed. Michael Barzelay and Babak Armajani trace the source of much poor performance in government to the persistent influence of what they call the bureaucratic paradigm—a theory built on such notions as central control, economy and efficiency, and rigid adherence to rules. Rarely questioned, the bureaucratic paradigm leads competent and faithful public servants—as well as politicians—unwittingly to impair government's ability to serve citizens by weakening, misplacing, and misdirecting accountability. How can this system be changed? Drawing on research sponsored by the Ford Foundation/Harvard University program on Innovations in State and Local Government, this book tells the story of how public officials in one state, Minnesota, cast off the conceptual blinders of the bureaucratic paradigm and experimented with ideas such as customer service, empowering front-line employees to resolve problems, and selectively introducing market forces within government. The author highlights the arguments government executives made for the changes they proposed, traces the way these changes were implemented, and summarizes the impressive results. This approach provides would-be bureaucracy busters with a powerful method for

dramatically improving the way government manages the public's business. Generalizing from the Minnesota experience and from similar efforts nationwide, the book proposes a new paradigm that will reframe the perennial debate on public management. With its carefully analyzed ideas, real-life examples, and closely reasoned practical advice, *Breaking Through Bureaucracy* is indispensable to public managers and students of public policy and administration.

Breaking Through Barriers Jan 22 2022 Have you ever felt like life was beating up on you because you dared to be different or tried to defend what you felt was right? This author describes the painful details from her childhood as she pioneered during the most challenging times of her life—the times when schools in the South were being desegregated. Although the challenges described in this book took place during the Civil Rights Movement, the experiences shared by the author are by no means limited to color barriers. The author shares her story to encourage anyone who may be perceived as different—no matter if they are young or old, tall or short, overweight or not, shy or out-going, or male or female. This book is written for anyone who may be feeling despair because they have been mistreated in life. It is written to encourage you to face life's challenges and to believe that God will give you the strength to break through barriers.

Breaking Through the Glass Ceiling Mar 12 2021 Women around the world have achieved higher levels of education than ever before and today represent more than 40 per cent of the global workforce. Yet their share of management positions remains low, with just a tiny proportion succeeding in breaking through the glass ceiling. This study reviews the changing position of women in the labour market and in professional and managerial work. It examines the obstacles to women's career development and the action taken to improve their opportunities and promote gender equality.

Breaking Through Barriers to Boys' Achievement Apr 12 2021 Examines research findings and provides strategies to help teachers break through the barriers and raise boys' achievement. The emphasis is not simply increasing academic achievement but developing a 'caring masculinity'.

Breaking the Book Sep 29 2022 *Breaking the Book* is a manifesto on the cognitive consequences and emotional effects of human interactions with physical books that reveals why the traditional humanities disciplines are resistant to 'digital' humanities. Explores the reasons why the traditional humanities disciplines are resistant to 'digital humanities' Reveals facets of book history, offering it as an example of how different media shape our modes of thinking and feeling Gathers together the most important book history and literary criticism concerning the hundred years leading up to the early 19th-century emergence of mass print culture Predicts effects of the digital revolution on disciplinarity, expertise, and the institutional restructuring of the humanities

Breaking Through Walls Jun 14 2021 *Breaking Through Walls* is a story of unlocking your potential for a richer life. Joe has a great life, until his boss grins and tells Joe he will be fired in thirty days unless his sales improve dramatically. Joe has hit the wall. Follow Joe on his journey, to learn how to break through the walls that stand between you and your dreams.

Breaking Through Gridlock Aug 29 2022 Using enlightening exercises and rich examples, this book helps us become aware of the role we unwittingly play in getting conversations stuck and empowers us to share what really matters so that together we can create positive change. --

Breaking Through Jan 10 2021

Breaking Through to Flow Oct 19 2021

Breaking the Maafa Chain Jun 02 2020 A richly imagined story of two sisters' struggle for true freedom in the mid-nineteenth century as their paths diverge in the middle passage—one to the court of Queen Victoria, the other to an American plantation. Salimatu and her sister Fatmata are captured, sold to slavers, renamed and split apart. Forced to change their names to Sarah and Faith, they end up on opposite sides of the Atlantic Ocean. Faith is taken to America, where slavery is still legal and she is stripped of all rights. Sarah ends up in a Victorian England and as the goddaughter of Queen Victoria. Can the two sisters reclaim their freedom and identity in a world that is trying to break them down? Will these once inseparable sisters survive without each other? And if they do find each other again, will they find the other changed beyond recognition? Based on the true story of Sarah Forbes Bonetta, *Breaking the Maafa Chain* is by turns epic and intimate and will take the readers on a journey of loss, survival, and hope.

Breaking Through Sep 17 2021 Provides an inside view of the lives of the Polgar sisters, each with their own goals and aspirations. This book takes readers through the incredible development of the three sisters as they pursued their dreams. It also includes a compilation of some of the Polgar sisters' most stunning chess games.

Breaking Through the Language Arts Block Dec 21 2021 This innovative book helps K–6 teachers infuse the entire school day with research-based literacy best practices. Classroom-tested strategies are presented for planning and implementing each component of the "exemplary literacy day"—vocabulary and word study sessions, literacy work stations, differentiated guided reading groups, reading and writing workshops, and interdisciplinary projects. Teachers get tips for organizing a print-rich classroom, supporting students' social–emotional well-being, and using assessment to guide instruction. User-friendly features include vivid vignettes, classroom management tips, questions for discussion and reflection, and 15 reproducible forms, checklists, and lesson templates. Purchasers get access to a Web page where they can download and print the reproducible materials in a convenient 8 1/2" x 11" size. Note: this book is a contemporary follow-up to Morrow's influential earlier title *Organizing and Managing the Language Arts Block*.

Breaking Down the Wall Mar 31 2020 It was a dark and stormy night in Santa Barbara. January 19, 2017. The next day's inauguration drumroll played on the evening news. Huddled around a table were nine Corwin authors and their publisher, who together have devoted their careers to equity in education. They couldn't change the weather, they couldn't heal a fractured country, but they did have the power to put their collective wisdom about EL education upon the page to ensure our multilingual learners reach their highest potential. Proudly, we introduce you now to the fruit of that effort: *Breaking Down the Wall: Essential Shifts for English Learners' Success*. In this first-of-a-kind collaboration, teachers and leaders, whether in small towns or large urban centers, finally have both the research and the practical strategies to take those first steps toward excellence in educating our culturally and linguistically diverse children. It's a book to be celebrated because it means we can throw away the dark glasses of deficit-based approaches and see children who come to school speaking a different home language for what they really are: learners with tremendous assets. The authors' contributions are arranged in nine chapters that become nine tenets for teachers and administrators to use as calls to actions in their own efforts to realize our English learners' potential: 1. From Deficit-Based to Asset-Based 2. From Compliance to Excellence 3. From Watering Down to Challenging 4. From Isolation to Collaboration 5. From Silence to Conversation 6. From Language to Language, Literacy, and Content 7. From Assessment of Learning to Assessment for and as Learning 8. From Monolingualism to Multilingualism 9. From Nobody Cares to Everyone/Every Community Cares Read this book; the chapters speak to one another, a melodic echo of expertise, classroom vignettes, and steps to take. To shift the status quo is neither fast nor easy, but there is a clear process, and it's laid out here in *Breaking Down the Wall*. To distill it into a single line would go something like this: if we can assume mutual ownership, if we can connect instruction to all children's personal, social, cultural, and linguistic identities, then all students will achieve.

Breaking Through Chronic Pelvic Pain Sep 25 2019 Do you suffer from chronic pelvic pain your practitioner is unable to treat effectively? Or

are you a practitioner who has struggled to identify the cause and treat your patients' pelvic pain? Having developed his groundbreaking holistic approach over 20 years ago, Dr. Weiss has become a world-renowned authority in this oft-overlooked field. *Breaking Through Chronic Pelvic Pain* will empower you to discover the true source of debilitating pelvic pain and finally alleviate it.

9 Things a Leader Must Do Nov 07 2020 Why do some leaders get and accomplish what they want as a matter of routine, while others seem to regularly experience frustration and setbacks? Why do some leaders achieve their goals and reach new heights, while others barely "hang in there" and survive? Based on his groundbreaking psychological study of the ways that successful individuals think and behave, Dr. Henry Cloud presents a simple yet profound roadmap to help leaders—and those who want to become leaders—arrive at greater levels of personal growth and corporate influence than they previously thought were possible. The good news for all of us is that leadership success is not limited to vague notions of "charisma" nor traditional advantages like graduate degrees and connections, but much more to a pattern of thinking and moving forward that learns from mistakes and stays focused on goals.

Breaking Through the Clouds Oct 31 2022 An inspiring picture book about the meteorologist whose discoveries helped us understand how weather works. When Joanne Simpson (1923-2010) was a girl, she sailed her boat beneath the puffy white clouds of Cape Cod. As a pilot, she flew her plane so high, its wings almost touched them. And when World War II began and Joanne moved to the University of Chicago, a professor asked her to teach Air Force officers about those very clouds and the weather-changing winds. As soon as the war ended, Joanne decided to seriously study the clouds she had grown to love so much. Her professors laughed. They told her to go home. They told her she was no longer needed. They told her, "No woman ever got a doctorate in meteorology. And no woman ever will." But Joanne was stubborn. She sold her boat. She flew her last flight. She saved her money so that she could study clouds. She worked so hard and discovered so much that—despite what the professors said—she received a doctorate in meteorology. She was the first woman in the world to do so. *Breaking Through the Clouds* tells the story of a trailblazing scientist whose discoveries about clouds and how they work changed everything we know about weather today.

Breaking Through Limitations Aug 17 2021

Breaking Through Jul 28 2022 This book examines what sovereignty and security mean in an Arctic region that is changing rapidly due to the intersection of globalization, climate change, and geopolitical competition.

Breaking Through Bias Apr 24 2022 More than fifty years after the beginning of the Women's Movement, women are still not "making it" in traditionally male careers. Women start their careers on parity with men but generally end them far earlier, having achieved less status, lower compensation, and less satisfaction than men. *Breaking Through Bias* explains that it is the stereotypes about women, men, work, leadership, and family that hold women back, and it presents an integrated set of communication techniques that women can use to avoid the discriminatory consequences of these stereotypes. This highly practical book makes clear that women don't need to change who they are to succeed in their chosen careers, and they certainly don't need to act more like men. Women do, however, need to be attuned to the negative gender stereotypes that surround them; they need to anticipate the biases these stereotypes foster, and they need to manage the impressions they make to avoid or overcome these biases. *Breaking Through Bias* presents unique, practical, and effective advice about how women can at last break through gender bias in the workplace and win at the career advancement game.

Breaking the Silos for Planetary Health Dec 29 2019 This book translates the latest theoretical perspectives on the emerging field of Planetary Health Studies into the practical reality of global political decision makers. It builds on the scientific data on the impacts of environmental change on human health to propose practical methods for operationalizing planetary health. The book maps opportunities for decision makers to break institutional silos and engage with bottom-up approaches that can transform planetary health from a global idea into a local reality. The analysis frames human health in the Anthropocene, an era in which humans have become the most powerful force affecting global ecosystems, and reveals new existential risks for humankind. Departing from ongoing multilateral efforts to promote sustainability, the author's analysis places the agenda of planetary health on the desk of political decision makers, still underrepresented at planetary health gatherings. Given the pressing need to implement sustainable development policies, the book presents planetary health as an overarching framework for global policy targets, notably the UN Sustainable Development Goals, the Paris Agreement on Climate Change, and the post-2020 biodiversity framework under the UN Convention on Biological Diversity. The book is timely in offering a concrete road map for practitioners and researchers interested in transforming the concept of planetary health into reality. With a collection of success stories, the analysis dwells on tools for community engagement, opportunities for health professionals training, gender empowerment, digital health, and innovative ways to enhance human well-being on a changing planet.

Breaking Through Feb 08 2021 Framed by the bawdy, boisterous, sometimes brutal, culture of hard rock miners in Northern Ontario, Canada, this is the memoir of a life so cruel that only alcohol made it bearable. Yet it is a life that, more than 20 years after alcohol pushed Allan over the brink, continues to be fully redeemed. "My intention", says Allan "is never to see through people but to see people through." Whatever challenges we face in life, *Breaking Through* has something we can take with us. Original.

Night Running Jan 28 2020 The current running boom has led to growing interest in running books. This daring volume combines the best of writing on running with the appeal of the best kind of literary writing, essays that take in a healthy dose of the outdoors, the sights and sounds and smells of real life, of real risk, of real pain and of real elation. Emphasizing female voices to reflect the preponderance of women among runners, this collection of personal essays set in different countries around the world offers a deep but accessible look at the power of running in our lives. From acclaimed novelist Emily Mitchell to ESPN reporter Bonnie Ford to UC Santa Cruz student Kelsey Eiland, a diverse lineup of writers captures a variety of perspectives on running at night. These are stories that can inspire people of all ages and backgrounds to take on a thrilling new challenge. The contributors all have distinct tales to tell, but each brings a freshness and depth to their experiences that make *Night Running* a necessary part of every runner's library - and a valuable addition to the reading lists of all thoughtful readers.

Breaking Through Aug 24 2019

Breaking Through By Grace: The Bono Story May 26 2022 When love walks in the room ... Awards, fame, wealth ... Bono has it all. But the biggest rock star in the world has something more important, something that has guided every step of his success: faith in God. From growing up in Ireland during deadly times to performing on the largest stages in the world, Bono's beliefs have kept him grounded and focused on what truly matters. Whether using his voice to captivate an audience or to fight for justice and healing in Africa, Bono is a champion of the lost and a hero to those who long for harmony.

Breaking Through Dec 01 2022 When women succeed, we all win. *Breaking Through* explores the mentoring relationship, and unravels its effects on women, businesses, society, and the economy. In 2010, author Martine Liautaud founded the Women Business Mentoring Initiative (WBMI) to support women entrepreneurs with the targeted advice and personalized guidance that can only come from a mentor. In late 2015, she set up the Women Initiative Foundation to broaden her action in favor of women in the business world. This book encapsulates the WBMI mission and other similar experiences inside international and US corporations, showing how mentoring and sponsorship can take many forms—and how each form benefits women in business. Through evidence-based narratives, you'll learn what real women have gained from

both sides of the dynamic, and why they credit mentoring with the strength of their business success. These stories show how mentoring yields increased efficiency, improved financials, more effective management, increased innovation, a broader talent pool, and increased revenues, and how helping women succeed in business leads to increased philanthropy and improves community sustainability. Gender equality has made huge strides in the US and Western Europe, but this progress is only apparent in the junior levels of the workplace. This book shows how mentoring women entrepreneurs and women managers provides the key that opens the door to the new economy. Understand why mentoring is key to women's economic advancement Learn how mentoring yields tangible benefits beyond the workplace Delve into the experiences of real mentor/mentee pairs Consider the effectiveness of various types of mentoring Despite the increasing opportunities for women in business, statistics and pervading stereotypes suggest that true gender equality is still far on the horizon. Mentoring and sponsorship can be tremendously helpful to women looking to achieve great things—the wisdom of experience is a powerful asset in business strategy and decision-making, and the mentor/mentee relationship benefits everyone. *Breaking Through* makes a compelling case for the effectiveness of mentoring, with real women's stories of success.

Breaking Through, Selling Out, Dropping Dead Nov 27 2019

Breaking Through May 14 2021 Catholic women are some of the most maligned, most caricatured, and most intriguing people in American society. America is flirting with the idea that being a Catholic female means saying "yes" to the faith as a private source of comfort, but "no" to living out its more countercultural moral and social teachings. Catholic women are facing unprecedented questions about sex, money, marriage, work, children and the church itself -- questions with innumerable personal and societal repercussions. Is it even possible that the teachings of a 2,000 year old religion are still relevant for today's toughest issues? A quick tour of leading cultural indicators seems to say "no." But this is far from the whole story. Many women, courageously facing questions their mothers and grandmothers would never have encountered, are finding intellectually and spiritually satisfying answers within the framework of their Catholic faith. Nine such Catholic women -- varying widely in age, occupation and experience -- share personal stories of how they struggled toward the realization that the demands of their faith actually set them free. Their stories -- full of honesty, but ultimately hope -- shed new light and new clarity on women's continued attraction to the Catholic faith. Topics include: Navigating dating and sex expectations Feminism, freedom and contraception Children versus a "better me" Being Catholic in light of the sexual abuse scandal Faith, psychology and same-sex attraction

Breaking Through the Pain Barrier Jul 16 2021 Award winning Australian biography endorsed by PainAustralia. In 1964 a junior doctor saw two critically burned boys run into a Sydney hospital begging for help. He saved their lives but struggled to reduce their suffering because few pain treatments existed. That doctor dedicated his life to reducing suffering by improving the treatment of pain. In a career that spanned 50 years, Dr Michael Cousins led the pain world, and crusaded tirelessly for access to pain management to be viewed as a universal human right. He developed new treatments such as epidural analgesia and closed-loop spinal stimulation that revolutionised pain management.

Breaking Through Culture Shock Feb 20 2022 This work looks at the international manager on a professional and personal level, however long- or short-term the assignment may be. It is a practical guide with checklists and exercises, offering step-by-step guidance for those embarking on an international career, and with essential advice for organizations on how to develop and manage their international staff. There is also expert advice on career management and on the effects that international work can have on families, and guidance on returning - reverse culture shock often being the greatest culture shock of all.

Breaking Through Barriers to Blessing Jul 04 2020 Has there been some unidentified hindrance in your Christian life? Do you often ask the question 'Why Me?' when things go wrong on a personal level, or 'Why not me?' when you feel God's blessings are eluding you? If we are honest, we often feel let down, or even somewhat of a fraud, because of the absence of blessing and victory in our lives. There appear to be some barriers to blessing, obstacles in the way which prevent us maturing as Christians. Christian conversion is not the end of our spiritual search and transformation, but rather the beginning; following which, Jesus Christ begins the process of changing us. We embark on a journey, one which will never end until we are like Him. For our transformation to begin, we need to diagnose the obstacles to blessing in our lives, so that we may receive the appropriate remedy.; Sins, wounds, and demons are the three general areas where most, if not all, problems occur. Obviously, the solutions to each of these problems are different. Sins should be repented of, wounds need to be healed, and demons must be expelled. In 'Breaking Through Barriers to Blessing', David Legge seeks to help you identify and overcome the hindrances to your progress as a Christian, releasing you to a life of blessing and fulfillment.

Breaking Through Oct 26 2019

Breaking Through the Boundaries Sep 05 2020 "The authors in this volume draw upon biblical narratives to highlight key roles played by Gentiles in the service of God's mission. Each biblical account is linked to a current, real-world issue as an application of the missiological insights gleaned from the biblical source. The biblical sources drawn upon include Abraham, Ruth, and Hagar; the current contexts addressed include Papua New Guinea, Chicago's immigrant communities, and North American encounters with God outside the Christian Church"--

Breaking the Time Barrier Nov 19 2021 IT WAS ONLY A MATTER OF TIME.... Once widely considered an impossibility--the stuff of science fiction novels--time travel may finally be achieved in the twenty-first century. In *Breaking the Time Barrier*, bestselling author Jenny Randles reveals the nature of recent, breakthrough experiments that are turning this fantasy into reality. The race to build the first time machine is a fascinating saga that began about a century ago, when scientists such as Marconi and Edison and Einstein carried out research aimed at producing a working time machine. Today, physicists are conducting remarkable experiments that involve slowing the passage of information, freezing light, and breaking the speed of light--and thus the time barrier. In the 1960s we had the "space race." Today, there is a "time race" involving an underground community of working scientists who are increasingly convinced that a time machine of some sort is finally possible. Here, Randles explores the often riveting motives of the people involved in this quest (including a host of sincere, if sometimes misguided amateurs), the consequences for society should time travel become a part of everyday life, and what evidence might indicate that it has already become reality. For, if time travel is going to happen--and some Russian scientists already claim to have achieved it in a lab--then its effects may already be apparent.

Breaking Through Jan 02 2023 Having come from Mexico to California ten years ago, fourteen-year-old Francisco is still working in the fields but fighting to improve his life and complete his education.

Breaking Through Power Mar 24 2022 "Nader's assessment of how concentrated wealth and power undermine democracy is clear and compelling, but it's his substantive vision of how we ought to respond that makes *Breaking Through Power* essential reading. Written just before Donald Trump's Electoral College victory, Nader's latest book reads with even greater urgency now."--Yes Magazine In *Breaking Through Power*, Ralph Nader draws from a lifetime waging--and often winning--David vs. Goliath battles against big corporations and the United States government. In this succinct, Tom Paine-style wake-up call, the iconic consumer advocate highlights the success stories of fellow Americans who organize change and work together to derail the many ways in which wealth manipulates politics, labor, media, the environment, and the quality of national life today. Nader makes an inspired case about how the nation can--and must--be democratically managed by communities guided by the United States Constitution, not by the dictates of big businesses and the wealthy few. This is classic

Ralph Nader, a crystallization of the core political beliefs and commitments that have driven his lifetime of advocacy for greater democracy. "Ralph Nader is the grand progressive of our time. We overlook his words at our own peril! This book is required reading."--Cornel West "Ralph Nader's *Breaking Through Power* is a brilliant analysis of corporate power and the popular mechanisms that can be used to wrest back our democracy. No one has been fighting corporate domination longer, or understands it better, than Nader, who will go down in history not only as a prophet but an example of what it means to live the moral life. We disregard his wisdom and his courage at our peril."--Chris Hedges, Pulitzer-Prize winner and author of *Wages of Rebellion: The Moral Imperative of Revolt* "Nader goes beyond delineating the problem and provides a critical prescription to battle the toxicity of unjust power--one that every individual can, and must, embrace."--Nomi Prins, author, *All the Presidents' Bankers* "People are recognizing that our founding, fundamental values of fairness, justice, and opportunity for all--the very values that define our America--are being shoved aside to create an un-America of plutocracy and autocracy. Ralph Nader's new book *Breaking Through Power* provides progressive boat-rockers with inspiration and a plan for reclaiming America from the greedy Plutocrats and Fat Cats who think democracy is for sale to the highest bidder."--Jim Hightower "I read Ralph Nader for the same reasons that I read Tom Paine. He knows what he thinks, says what he means, and his courage is a lesson for us all."--Lewis Lapham "Nader insists on speaking up for the little people and backs his arguments and decent sentiments with hard facts."--Publishers Weekly About Ralph Nader: Named by *The Atlantic* as one of the hundred most influential figures in American history, and by *Time* and *Life* magazines as one of the most influential Americans of the twentieth century, Ralph Nader has helped us drive safer cars, eat healthier food, breathe better air, drink cleaner water, and work in safer environments for more than four decades. Nader's recent books include *Animal Envy*, *Unstoppable*, *The Good Fight*, and the bestseller, *Seventeen Traditions*. Nader writes a syndicated column, has his own radio show, and gives lectures and interviews year round.
