The Psychiatric Mental Status Examination Oct 16 2021  
Developed from years of teaching psychiatry to medical students and residents, this comprehensive text devoted solely to describing the mental status examination (MSE) fills a void in the teaching literature and will be valuable to both students first learning about the MSE and seasoned clinicians seeking an informative reference. The introductory chapter offers basic advice on interviewing patients and eliciting information. Six major sections of the MSE follow and are thoroughly described with a chapter devoted to each: Appearance, Attitude, Activity, Mood and Affect; Speech and Language; Thought Content, Thought Process, and Perception; Cognition; and Insight and Judgment. Each chapter lists a detailed definition of reference for students describing their findings, and are an insightful review even for experienced practitioners. The clinical relevance of mental status abnormalities is illustrated through frequent examples of disorders that can cause the particular signs and symptoms defined in each chapter. A final chapter describing fictional case histories with hypothetical examples of written mental status reports will be particularly useful for those learning to write such reports. This text is an important addition to the libraries of students and practitioners who work with psychiatric patients and should help to simplify and organize a challenging task.

Gullah Images Jul 13 2021 Paintings, magisterial and universal, that capture the essence of a vibrant African American community In his art Jonathan Green paints the world of his childhood and an ode to a people imbued with a profound respect for the dignity and value of others—the Gullah people of the South Carolina barrier islands. His canvases, beloved for their sense of jubilation and rediscovery, evoke the meaning of community in Gullah society and display a reverence for the rich visual, oral, and spiritual traditions of its culture. His art also reveals a keen awareness of the interpersonal, social, and natural environments in which we live. The 180 images assembled in this collection showcase the meaning, purpose, and beauty that Green finds in the small but critical tasks of life. His work elevates the everyday—preparing morning meals, doing the wash, accomplishing farming chores, finishing a day's work, relaxing

in the evening—and celebrates the social and religious—community dances, baptisms, weddings, funerals. Green allows his audience the space and silence to observe people unobtrusively as they pursue life's mission of labor, love, and belonging and as they work in harmony with nature's mysterious, ever changing fabric. While Green's paintings speak specifically to his own upbringing, they transcend racial, cultural, and ethnic boundaries, thus allowing individuals of all backgrounds to recall fond memories and to reflect on the place that purpose and dignity hold in their lives. In addition to a foreword by Pat Conroy, essays by Bettye J. (Mbitha) Parker Smith, Lynn Robertson, and Ronne Hartfield complement Green's images. They tell of the vitality of the Gullah community, the progression of Green's career, and the authenticity of his work.

two sheets for each figure. Illustrated with original art, it makes each creation—the essential lightsabers, the Death Star, and much more—true to the movies. Gorilla in the Room and Other Stories Feb 20 2022 Ed Tracy was the perfect candidate for cancer. Intensely motivated and a tireless innovator, the non-stop pace led to high anxiety, erratic sleep patterns and a life-altering medical diagnosis unlike that of anybody else. Rule No.1: Nobody's cancer journey is the same. Growing impatient and irritable, he began to imagine an oncology ward on a Broadway stage with costumes and music and patients and hope. Stan Lee Mar 21 2022 The Amazing Spider-Man. The Incredible Hulk. The Invincible Iron Man. Black Panther. These are just a few of the iconic superheroes to emerge from the mind of Stan Lee. From the mean streets of Depression-era New York City to recipient of the National Medal of Arts, Lee's life has been almost as remarkable as the thrilling adventures he spun for decades. From millions of comic book fans of the 1960s through billions of moviegoers around the globe, Stan Lee has touched more people than almost any person in the history of popular culture. In Stan Lee: The Man behind Marvel Bob Batchelor offers an eye-opening look at this iconic visionary, a man who created (with talented artists) many of

history's most legendary characters. In this energetic and entertaining biography, Batchelor explores how Lee capitalized on natural talent and hard work to become the editor of Marvel Comics as a teenager. After toiling in the industry for decades, Lee threw caution to the wind and went for broke, co-creating the Fantastic Four, Spider-Man, Hulk, Iron Man, the X-Men, the Avengers, and others in a creative flurry that revolutionized comic books for generations of readers. Marvel superheroes became a central part of pop culture, from collecting comics to innovative merchandising, from superhero action figures to the ever-present Spider-Man lunchbox. Batchelor examines many of Lee's most beloved works, including the 1960s comics that transformed Marvel from a second-rate company to a legendary publisher. This book reveals the risks Lee took to bring the characters to life and Lee's tireless efforts to make comic books and superheroes part of mainstream culture for more than fifty years. Stan Lee: The Man behind Marvel not only reveals why Lee developed into such a central figure in American entertainment history, but brings to life the cultural significance of comic books and how the superhero genre reflects ideas central to the American experience. Candid, authoritative, and utterly absorbing, this is a biography of a man who dreamed of one day writing the Great American Novel, but ended up doing so much more—changing American culture by creating new worlds and heroes that have entertained generations of readers.
