Because magic doesn't die right away--it decays, twists, and poisons all that it touches. And now it's beginning to poison people. As if it were a holding pen for rotting trash, authorities in the nursing home system dispensed him to that dark cell. For the second time in their lives, Judy desperately searches for the answer to free her father. While growing up in an alcoholic environment, she struggled to find what drove him to drink. She was sure if she found it she could cure her father of alcoholism and make everyone happy. Judy finds the liberating key to his present imprisonment, but she cannot turn the lock until she revisits and reveals the shameful secret carefully and faithfully guarded for decades. While doing so, she confronts her fears and emotional wounds carved within a dysfunctional family. That is not enough, though, to rescue him, for the two are now ensnared by an unfamiliar adversary—nursing home neglect and abuse—that Judy must battle every day for her defenseless father. Through it all she longs for him to believe he is and always was important, worthy, loved. Are you a child of an alcoholic? a caregiver of the elderly? a seeker of love's passages? This heart-gripping story shares pain and victory. "Before the Door Closes is very well written and revealing of the pains and triumphs of Judith Hall Simon's journey with an alcoholic father. While reading this book I felt that I was reading the journey of only one person not two. Judith reveals just how overwhelming an alcoholic father can be and how one's identity can be taken over by an alcoholic parent. Her book teaches and touches at the same time. I recommend it to the millions of adult children of alcoholics and to those who love them. Nice work!" ROBERT J. *The Dramaturgy of the Door examines the door as a critical but under-explored feature of theatre and performance, asking how doors function on stage, in site-specific practice and in performances of place. This first book-length study on the topic argues that doors engage in and help to shape broad phenomena of performance across key areas of critical enquiry in the field. Doors open up questions of theatrical space(s) and artistic encounters with place(s), design and architecture, bodies and movement, interior versus exterior, im/materiality, the relationship between the real and the imaginary, and processes of transformation. As doors separate places and practices, they also invite us to see connections and contradictions between each one and to consider the ways in which doors frame the world beyond the stage and between places of performance. With a wide-ranging set of examples – from Shakespeare's Macbeth to performance installations in the Mojave desert – The Dramaturgy of the Door is aimed at performance makers and artists as well as advanced students and scholars in the fields of performance studies, cultural theory, and visual arts.*

*The first book available to comprehensively address the treatment of sexually abused males, Opening the Door: A Treatment Model for Therapy with Male Survivors of Sexual Abuse is based on current research and the carefully evolved techniques of 41 therapists who have developed expertise in working with sexually abused males. It discusses both the approaches that these therapists bring to their work and presents interventions they have successfully applied in treatment. Written in clear, concise language, Opening the Door features a four-phase treatment model and presents, in detail, the therapeutic tasks necessary for each phase. This model makes clear the significant parallels and*

*distinctions between the processes of therapy and abuse. These processes are discussed throughout the text to ensure that therapy will be a healing rather than a harmful experience. The volume presents information about the frequency of male sexual victimization, the impact of this victimization on the individual, primary differences between male and female victimization, and the issues victims typically bring into therapy. The four-phase treatment model for male survivors and the therapeutic tasks of each stage is then addressed. This model serves as a framework for presenting specific therapeutic interventions. Chapters examine such areas as the essential processes that pertain to all therapeutic modalities (individual, group, etc.) when treating male survivors of sexual abuse; contracting with clients, assessment guidelines, and methods of evaluation; individual therapy with male survivors; a two-stage group treatment model for male survivors, which discusses contraindications for group treatment, screening criteria, general ground rules for the group, and effective interventions; critical issues in treating male survivors, including engagement strategies, therapeutic impasses, and client/therapist gender dynamics; and the therapeutic process as it applies to adolescent male survivors, with particular emphasis on how treatment must be carefully tailored to the developmental needs of this group. Included are guidelines for working with adolescents and several interventions that contributors have successfully used with this population. Since working extensively with abuse survivors can exact significant personal costs, the book provides important self-care strategies for therapists to incorporate into their work and lives and discusses seven ways in which to recognize and manage counter-transference. The volume also contains a highly comprehensive list of written, video, and training resources that will provide therapists with numerous avenues to expand their clinical practice and knowledge, as well as seven appendices that include the DES Questionnaire and the Dean Adolescent Inventory Scale. Opening the Door will be an invaluable resource for all mental health practitioners who help male victims of sexual abuse to transcend survivorship and learn to live healthy, productive, and vital lives. **Muscovy duck. #1 New York Times bestselling author of Tidelands—the “searing portrait of a woman that resonates across the ages” (People)—returns with an evocative historical novel tracking the rise of the Tidelands family in London, Venice, and New England. Midsummer Eve 1670. Two unexpected visitors arrive at a shabby warehouse on the south side of the River Thames. The first is a wealthy nobleman seeking the lover he deserted twenty-one years earlier. Now James Avery has everything to offer: a fortune, a title, and the favor of the newly restored King Charles II. He believes that the warehouse’s poor owner Alinor has the one thing he cannot buy—his son and heir. The second visitor is a beautiful widow from Venice in deepest mourning. She claims Alinor as her mother-in-law and tells her of the death of Rob—Alinor’s son—drowned in the dark tides of the Venice lagoon. Meanwhile, Alinor’s brother Ned, in faraway New England, is making a life for himself between in the narrowing space between the jarring worlds of the English newcomers and the American Indians as they move towards inevitable war. Alinor writes to him that she knows—without doubt—that her son is alive and the widow is an imposter. But how can she prove it? Set in the poverty and glamour of Restoration London, in the golden streets of Venice, and on the tensely contested frontier of early America, this is a novel of greed and desire: for love, for wealth, for a child, and for home. In the end, this was just another of the murders that occur in Chicago every day—one more sudden last breath resulting from lives meshing together, rubbing and bumping each other in the daily struggle to survive. This is the story of Frank McKay, a troubled detective laboring against the background of failure and mistakes in his own life. While he pursues the truth in the murder of Damon Grayson, unexpected opportunity tempts him to resolve his worries over money. Frank must decide whether salvaging what remains of the good cop he used to be is worth continuing the twisted financial torture in his life. And by the time you turn the last page, this story will make you ask the question: “What happened after the door opened?” Which human emotion is strong enough to push a person to kill? Love spurned? Betrayal? Money? Revenge? Hate? And just when you say “Ah, hah-I know,” gaze into a mirror to look beyond the color of your eyes, and think again. Think again. In this wonderful selection from the Christ Mind Teachings, Paul Ferrini shares the message of Jesus as he received it over a seven-year period. Here at last is a gospel devoted solely to Jesus’ teachings of love, healing and forgiveness. The teacher we meet here is the compassionate, open-minded teacher we know in our hearts. He rejects the dogmatic, narrow-minded concepts of fundamentalist Christianity that reinforce our shame, intolerance and spiritual pride and instead empowers all of us to awaken the Christ potential within. Noah has not gotten a good night's sleep since moving from a noisy apartment in the city to a quiet house in the suburbs, but that changes after his parents invite former neighbors to celebrate the dedication of their home as a Jewish home. A warm, witty memoir of a young family's rugged adventure living in the newly established Big Bend National Park in the 1940s. A woman who went West with her husband in the 1840s must have expected hardships and privation, but during the 1940s, when Etta Koch stopped off in Big Bend with her young family and a twenty-three-foot travel trailer in tow—which they named Porky, the Road Hog—she anticipated a brief, civilized camping trip between her old home in Ohio and a new one in Arizona. It was only when she found herself moving into an old rock house without plumbing or electricity in the new Big Bend National Park that Etta realized she'd left her sheltered life behind for an experience in frontier living. In this book based on her journals and letters, Etta Koch and her daughter June Cooper Price chronicle their family's first years—1944–1946—in the Big Bend. Etta describes how her photographer husband Peter Koch became captivated by the region as a place for natural history filmmaking—and how she and their three young daughters slowly adapted to a pioneer lifestyle during his months-long absences on the photo-lecture circuit. In vivid, often humorous anecdotes, she describes making the rock house into a home, getting to know the Park Service personnel and other neighbors, coping with the local wildlife, and, most of all, learning to love the rugged landscape and the hardy individuals who call it home. "A mother has several questions when her son tells her there's a bear standing outside the front door of their eleventh-floor apartment"-- The acclaimed authors of Death by a Thousand Cuts argue that Americans care less about inequality than about their own insecurity. Michael Graetz and Ian Shapiro propose realistic policies and strategies to make lives and communities more secure. This is an age of crisis. That much we can agree on. But a crisis of what? And how do we get out of it? Many on the right call for tax cuts and deregulation. Others on the left rage against the top 1 percent and demand wholesale economic change. Voices on both sides line up against globalization: restrict trade to protect jobs. In The Wolf at the Door, two leading political analysts argue that these views are badly mistaken. Michael Graetz and Ian Shapiro focus on what really worries people: not what the rich are making but rather their own insecurity and that of people close to them. Americans are concerned about losing what they have, whether jobs, status, or safe communities. They fear the wolf at the door. The solution is not protectionism or class warfare but a return to the hard work of building coalitions around realistic goals and pursuing them doggedly through the political system. This, Graetz and Shapiro explain, is how earlier reformers achieved meaningful changes, from the abolition of the slave trade to civil rights legislation. The authors make substantial recommendations for increasing jobs, improving wages, protecting families suffering from unemployment, and providing better health insurance and child care, and they guide us through the strategies needed to enact change. These are achievable reforms that would make Americans more secure. The Wolf at the Door is one of those rare books that not only diagnose our problems but also show us how we can address them. The Key to the Door frames and highlights the stories of some of the first black students at the University of Virginia.
