Urban Remote Sensing Sep 19 2019 Urban Remote Sensing The second edition of Urban Remote Sensing is a state-of-the-art review of the latest progress in the subject. The text examines how evolving innovations in remote sensing allow to deliver the critical information on cities in a timely and cost-effective way to support various urban management activities and the scientific research on urban morphology, socio-environmental dynamics, and sustainability.

Chapters are written by leading scholars from a variety of disciplines including remote sensing, GIS, geography, urban planning, environmental science, and sustainability science, with case studies predominately drawn from North America and Europe. A review of the essential and emerging research areas in urban remote sensing including sensors, techniques, and applications, especially some critical issues that are shifting the directions in urban remote sensing research. Illustrated in full color throughout, including numerous relevant case studies and extensive discussions of important concepts and cutting-edge technologies to enable clearer understanding for non-technical audiences. Urban Remote Sensing, Second Edition will be of particular interest to upper-division undergraduate and graduate students, researchers and professionals working in the fields of remote sensing, geospatial information, and urban & environmental planning.

Count Me in Jun 28 2020 "This book is about involving and engaging urban poor communities in one of the first steps of any participatory planning or upgrading initiative. It describes how we can use 'participatory enumerations,' a surveying method used to gain better knowledge of the needs and priorities of the

community. It presents and analyses existing and novel applications of participatory enumerations to enhance tenure security and improve urban land management."--Publisher's description.

Pictures and Tears May 20 2022 Art Does art leave you cold? And is that what it's supposed to do? Or is a painting meant to move you to tears? Hemingway was reduced to tears in the midst of a drinking bout when a painting by James Thurber caught his eye. And what's bad about that? In *Pictures and Tears*, art historian James Elkins tells the story of paintings that have made people cry. Drawing upon anecdotes related to individual works of art, he provides a chronicle of how people have shown emotion before works of art in the past, and a meditation on the curious

tearlessness with which most people approach art in the present. Deeply personal, *Pictures and Tears* is a history of emotion and vulnerability, and an inquiry into the nature of art. This book is a rare and invaluable treasure for people who love art. Also includes an 8-page color insert.

Escape from Vichy Nov 21 2019 In the early years of World War II, thousands of political refugees traveled from France to Vichy-controlled Martinique in the French Caribbean, en route to what they hoped would be safer shores in North, Central, and South America. While awaiting transfer from the colony, the exiles formed influential ties—with one another and with local black dissidents. *Escape from Vichy* recounts this flight from the refugees' perspectives, using novels, unpublished diaries, archives, memoirs, artwork, and other materials to explore the unlikely encounters that fueled an anti-fascist artistic and intellectual movement. The refugees included Spanish Republicans, anti-Nazi Germans and Austrians, anti-fascist

Italians, Jews from across Europe, and others fleeing violence and repression. They were met with hostility by the Vichy government and rejection by the nations where they hoped to settle. Martinique, however, provided a site propitious for creative ferment, where the revolutionary Victor Serge conversed with the anthropologist Claude Lévi-Strauss, and the Surrealist André Breton met Negritude thinkers René Ménénil and Aimé and Suzanne Césaire. As Eric T. Jennings shows, these interactions gave rise to a rich current of thought celebrating blackness and rejecting racism. What began as expulsion became a kind of rescue, cut short by Washington's fears that wolves might be posing in sheep's clothing.

Storytelling in Northern Zambia Mar 26 2020

Storytelling plays an important part in the vibrant cultural life of Zambia and in many other communities across Africa. This innovative book provides a collection and analysis of oral narrative traditions as practiced by five Bemba-speaking ethnic groups in Zambia. The integration of newly digitalised audio and video recordings into the text enables the reader to encounter the storytellers themselves and hear their narratives. Robert Cancel's thorough critical interpretation, combined with these newly digitalised audio and video materials, makes *Storytelling in Northern Zambia* a much needed addition to the slender corpus of African folklore studies that deal with storytelling performance. Cancel threads his way between the complex demands of African fieldwork studies, folklore theory, narrative modes, reflexive description and simple documentation and succeeds in bringing to the reader a set of performers and their performances that are vivid, varied and instructive. He illustrates this living narrative tradition with a wide range of examples, and highlights the social status of narrators and the complex local identities that are at play. Cancel's study tells us not only about storytelling but sheds light on the study of oral literatures throughout Africa and beyond. Its innovative

format, meanwhile, explores new directions in the integration of primary source material into scholarly texts. This book is the third volume in the World Oral Literature Series, developed in conjunction with the World Oral Literature Project.

Children of the Earth Goddess Feb 23 2020 The whole world is changing with incredible speed towards something radically new, yet people across the globe also show resistance to the forces that homogenize our lives. This book deals with a community that has found its niche in the remote Niamgiri mountain range of Odisha (India) and is struggling to preserve its way of life: the Dongria Kond. In recent years, they made the headlines as the real "Avatars" because they successfully fought a multinational company's plans to mine the mountains. From the perspective of the Dongria Kond, these mountains are the seat of gods, and the whole environment is animated by spiritual forces. This highly complex cosmic order includes humans and non-humans and rests on a divine law (niam). This book captures the viewpoint of the Dongria Kond and provides deep insights into their vision of the world. It offers elaborate accounts of how the Dongria relate to the outside world, conceive of their own society and engage in complex rituals in order to (re-)establish the cosmos.

The book confronts the reader with radically different imaginings of familiar human concerns: love, fertility, wealth, status and well-being.

Milking in the Shadows Apr 07 2021 Migrant workers live in a transnational world that spans the boundaries of nation-states. Yet for undocumented workers, this world is complicated by inflexible immigration policies and the ever-present threat of enforcement. Workers labeled as "illegals" wrestle with restrictive immigration policies, evading border patrol and local police as they risk their lives to achieve economic stability for their families. For this group of workers, whose lives in the U.S. are largely defined by their tenuous legal status, the sacrifices they make to get ahead entail long periods of waiting, extended separation from family, and above all, tremendous uncertainty around a freedom that many of us take for granted—everyday mobility. In *Milking in the Shadows*, Julie Keller takes an in-depth look at a population of undocumented migrants working in the American dairy industry to understand the components of this labor system. This book offers a framework for understanding the disjuncture between the labor desired by employers and life as an undocumented worker in America today.

Green Green Nov 26 2022 Green grass is wide and fresh and clean for a family to play in, and brown dirt is perfect for digging a

garden. But when gray buildings start to rise up and a whole city builds, can there be any room for green space? The neighborhood children think so, and they inspire the community to join together and build a garden for everyone to share in the middle of the city.

Charlotte and the Nutcracker Apr 26 2020 A reimagined and modern take on the holiday favorite, this picture book weaves together the classic Christmas tale of The Nutcracker and the true-life story of 12-year-old ballerina Charlotte Nebres, the first Black girl to play Marie in the New York City Ballet's production. The only thing Charlotte loves as much as ballet is Christmas. So, when she gets the opportunity to play Marie in the New York City Ballet's The Nutcracker, she leaps at the chance. Dancing takes practice-hours of adjusting her arms and perfecting her jumps. With the help of her Trinidadian and Filipino families, encouragement from her sister, and a view of her mom and dad in the

audience, Charlotte finds the strength to never give up. In this spectacular debut full of fluid, dynamic illustrations, Charlotte provides youngsters with a multicultural tale of family, dance, and holiday cheer.
