**Auditing** Oct 31 2022 The eleventh edition of Auditing provides a simplified but thorough approach to students understanding of auditing theory and practice. It clearly explains the key features of auditing in short, easily accessible sections to encourage effective learning. The authors have sought to provide a comprehensive textbook with up-to-date research. Auditing has been completely updated to reflect recent changes in international standards, regulatory processes and corporate governance as well as developments in the field of auditing. The new edition is ideal for anyone studying

modules in auditing at undergraduate or postgraduate level, or those preparing for professional examinations set by accounting bodies such as ACCA.

### **Finance for Non-financial Managers** Feb 20 2022

Suitable especially for courses on which students are encouraged to be active participants in the learning process, this text offers a practical and activity-based approach to understanding finance for people who do not need to know the technicalities

of finance and accounting. Typical of the courses on which it can be used are DMS, MBA, BTEC HNC/D, Certified Diploma in Accounting and Finance, and Business Studies degree-course modules in finance.

The Lambeth Cholera Outbreak of 1848-1849 Jan 28 2020 This work brings together a unique

range of sources to reveal a forgotten episode in London's history. Situated opposite Westminster on the south bank of the River Thames, by 1848 Lambeth's waterfront had become London's industrial center and a magnet to migrant workers. The book exposes the suffering of the working population in the face of apathy and ineptitude, and convincingly challenges the long-standing belief that London's numerous cholera outbreaks beginning in 1832 were unrelated. The work combines recent scientific research with first-hand accounts to show for the first time that in the nineteenth century cholera was very

probably endemic in the River Thames.
