This guide explains each of the MS-DOS commands in a clear and concise manner and gives helpful hints on command usage and explanations of the hierarchical directory and I/O redirections that will enable readers to make the best use of their computers. Silence is essential for the health and well-being of humans and the environment in which they live. Yet silence has almost vanished from our lives and our world. Of all the books that claim to be about silence, this is the only one that addresses silence directly. Silence: A User's Guide is just what the title says: it is a guide to silence, which is both a vast interior spaciousness, and the condition of our being in the natural world. This book exposes the processes by which silence can transfigure our lives--what Maggie Ross calls "the work of silence"; it describes how lives steeped in silence can transfigure other lives unawares. It shows how the work of silence was once understood to be the foundation of the teaching of Jesus, and how this teaching was once an intrinsic part of Western Christianity; it describes some of the methods by which the institution suppressed the work of silence, and why religious institutions are afraid of silence. Above all, this book shows that the work of silence gives us a way of being in the world that is more than we can ask for or imagine. Take control of your personal finances with this concise, timely and indispensable guide, from acclaimed money expert Laura Whateley. Ten years on from the financial crash, and we are still bad with money. We press 'cash only' at ATMs, and accept that we'll be paying back our student loans with our pension savings. Money: A User's Guide cuts through all the panic of

*personal finances. It will teach you how to get a great credit score, how to save hundreds on bills, and offer practical advice on every difficult conversation you've been avoiding including: * Housing (for renters and buyers) * Student Loans * Pensions * Paying off debt * Stocks and shares * Ethical investments * Money and Mental health * Money and Love This essential book will give you the confidence and clarity to take back control of your bank account, enabling you to thrive in all areas of your life. A complete guide to HP Vue for the beginning, day-to-day user, this indispensable book covers over 100 of the most useful HP-UX commands, including real-world screen displays to illustrate concepts, dozens of tips to save keyboard strokes and increase productivity, and hints and suggestions for customizing HP Vue setup files for your specific needs. Causation is at once familiar and mysterious—we can detect its presence in the world, but we cannot agree on the metaphysics of the causal relation. L. A. Paul and Ned Hall guide the reader through the most important philosophical treatments of causation, and develop a broad and sophisticated understanding of the issues under debate.
